

State of Our Schools Speech by Superintendent Ann Clark

Thank you, Steven. Good morning, everyone. It's a pleasure to welcome all of you to our annual State of Our Schools event. Thank you for making time to join us.

As Steven told you, we first met when he was in middle school at Alexander Graham and I was the principal there. It has been my privilege to follow his journey from student to successful adult. We want every student in CMS to make that journey successfully. Ensuring that every child completes the journey is the mission of CMS. All of us in this room today care about our children and their education.

Educating a child is a process that begins at home and continues all the way through school and into the workplace and the wider world. Education cannot be accomplished or measured in a single day, a single test or a single year. It's a lifelong journey that builds on success in the early grades to create a foundation for learning later on. It's a continuum of learning and support that begins when a child enters school and continues all the way through high school and beyond. So many people are needed along the way. Parents, teachers, school staff, administrators all have a role to play. So do many others – volunteers, working professionals, citizens, elected officials.

We are fortunate to have the support of our district employees and the wider community. I've asked seven people who are involved with CMS to tell their stories during today's program and they are here on stage. Let me introduce them now and then you'll hear from them as we go along. I will introduce them starting from your left. Psalms Olivia Phifer White is a senior at Harding University High School. Next to her is Katie B. Morris, who chairs the Belk Foundation. Mark Rohlinger is the plant technical director for Bosch Rexroth in Charlotte. Lecia Shockley is the 2014 CMS Teacher of the Year and teaches second grade at Selwyn Elementary. Michael

The Pro-Growth Progressive Gene Sperling,2005-11-30 President Bill Clinton s National Economic Adviser addresses the main issues that were at the center of debate in Bush s second term Social security reform outsourcing and deficit reduction After two consecutive elections in which Democratic candidates failed to turn clear economic advantages into electoral victory a debate is raging over what the Democrats should do now The narrow red state blue state argument between chest beating populists and soulless centrists offers the answer to neither the country s economic future nor the political future of the Democrats In The Pro Growth Progressive President Clinton s longest serving national economic advisor Gene Sperling argues that the best economic strategy for our nation and the best strategy for progressives whether they be Democrat Republican or Independent is to pursue policies that are both progressive and pro growth that promote progressive values of upward mobility fair starts and economic dignity as well as embrace markets and innovation Sperling describes how both parties offer the American public impoverished choices Democrats in the sky is falling party too often pretend that the way to promote progressive values and expand the American middle class is to slow the pace of the global economy stop all outsourcing and intervene in the market Republicans of the don t worry be happy party hold fast to the bankrupt vision that the best thing for economic growth is the smallest government possible and have made the conservative deficit hawks of the 1990s an endangered species But The Pro Growth Progressive is neither an all out assault on the Bush agenda nor a partisan call for Democrats to move further left Both conservatives and progressives have to accept hard truths about the limitations of their approaches Drawing on his years of policy experience Sperling lays out a third way on the issues that are dominating the news and Bush s second term social security ownership globalization and deficit reduction He

explains the policy alternatives that respect the power of free markets while giving government a role in ensuring that the markets benefit all working families Focused and timely The Pro Growth Progressive offers a realistic vision of free enterprise and economic growth in which government can improve education reduce poverty and restore the country to fiscal sanity

The Gastrend Conspiracy Harlan Hansen, 2009-12 The GasTrend Conspiracy is the fictional account of an attempted takeover of a natural gas distribution company by a major city through condemnation action and citizen vote The reasons for the attempted condemnation and ultimate ownership of GasTrend by the city are the mayor's hatred of GasTrend and the city's declining revenues due to an economic downturn The initial gas company crisis begins when a county road grader slips on an icy ridge in below zero weather The grader slides through a bridge railing and cuts open the high pressure natural gas line feeding gas to the city The ensuing explosion and fire consumes the road grader kills the operator and prevents new natural gas from flowing into the city thus endangering residents because soon there will be no heat Something must be done quickly or the residents could freeze In order to own and operate the gas company the mayor convinces some legislators to introduce a bill in the State House that would allow condemnation action This would insure that they would also pay for all of the expenses of the action and the subsequent election How can they get the natural gas business back on track so that it is working for the people and not against them

Who We Met on the Way to Stanford Richard P. Sinay, 2024-08-09 In the fall of 2000 my son began attending Stanford on a golf scholarship It was a long and challenging road to achieve this goal When he learned about the college he went around the house with his Stanford sweatshirt and seldom took it off After winning the San Diego Junior World Golf Championship he was an accomplished junior golfer Stanford's coach at the time was Wally Goodwin an

excellent cheerful fellow who was also Tiger Woods's coach Wally had seen the best golfers at Stanford so he was a coach who knew what he wanted in a player He started following my son after this victory at the San Diego tournament and around the time he received a letter asking Wally if he would come to watch him play golf Wally did he was there often to oversee this young man's development and golf As a father I took my son to many golf tournaments He was a joy to watch and did well as a junior golfer through high school He even had the accomplishment of replacing Tiger Woods's scoring record Tiger's best score for the high school championships in Southern California was 66 but my son managed to shoot a 65 in his junior year in high school against players from five hundred and eighty six schools and other high schools Many other delightful moments were watching my son play and good times I will not forget One day while reading through some of my writings I came across some notes my son had sent me about appealing the dismissal of his scholarship Reading the notes almost seventeen years later was a revelation to me I was unaware of the time frames at the time of the essence of this story so I investigated the information further What I discovered became the basis of this book There were weeks of struggling with the time frames and difficulties understanding what happened in the struggle at Stanford The book is my way of putting together what I discovered What I found to be mostly true but not having been there myself I may not even know half the story Nevertheless this is my memoir of what it was like raising a kid with extraordinary talent playing golf and what happened when he arrived at Stanford to fulfill his obligation for the scholarship he received
