Spain and Spanish America in the Libraries of the University of California University of California, Berkeley. Library, Alice Irene Lyser, 1928 The general and departmental libraries University of California, Berkeley. Library, 1928 *Places that the map can't contain: Poetics in the Anthropocene* Julia Fiedorczuk, Paweł Piszczatowski, 2023-07-10 Inspired by Lynn Keller's notion of the self-conscious Anthropocene the book sets out to consider poetry as a privileged space for rethinking our basic epistemological assumptions Poetry does not have the kind of agency a direct political intervention has in fact as W H Auden famously put it poetry makes nothing happen On the other hand poetry is crucial when it comes to awakening our individual and collective imagination Considering the statement by Lawrence Buell that the current ecological crisis is in the first place a crisis of the imagination this function of poetry comes through as particularly important **Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V)** Miguel Ángel Esparza Torres, Hans-Josef Niederehe, 2015-10-15 Since the publication of the still very valuable Biblioteca hist rica de la filolog a by Cipriano Mu oz y Manzano conde de la Vi aza Madrid 1893 our knowledge of the history of the study of the Spanish language has grown considerably and most manuscript and secondary sources had never been tapped before Hans Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings scattered in libraries journals and other places The resulting Bibliograf a cronol gica de la ling stica la gram tica y la lexicograf a del espa ol Desde los principios hasta el a o 1600 BICRES began appearing in 1994 BICRES I covered the period from the early beginnings to 1600 followed by BICRES II 1601 1700 BICRES III 1701 1800 and together with Miguel ngel Esparza Torres of Madrid there followed BICRES IV 1801 to 1860 Now the fifth volume has become available covering the years from 1861 to 1899 Access to the bibliographical information of altogether 5 272 titles is facilitated by several detailed indexes such as a short title index a listing of printers publishers and places of production and an author index More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work relative sources of the Americas have also been covered making it exhaustive source for any serious scholar of any possible aspect of the Spanish language **Bulletin of the Public Library of the City of Boston** Boston Public Library, 1892 **The Language Encounter in the Americas, 1492-1800** Edward G. Gray, Norman Fiering, 2001-01-01 When Columbus arrived in the Americas there were it is believed as many as 2 000 distinct mutually unintelligible tongues spoken in the western hemisphere encompassing the entire area from the Arctic Circle to Tierra del Fuego This astonishing fact has generally escaped the attention of historians in part because many of these indigenous languages have since become extinct And yet the burden of overcoming America s language barriers was perhaps the one problem faced by all peoples of the New World in the early modern era African slaves and Native Americans in the Lower Mississippi Valley Jesuit missionaries and Huron speaking peoples in New France Spanish conquistadors and the Aztec rulers

All of these groups confronted America's complex linguistic environment and all of them had to devise ways of transcending that environment a problem that arose often with life or death implications For the first time historians anthropologists literature specialists and linguists have come together to reflect in the fifteen original essays presented in this volume on the various modes of contact and communication that took place between the Europeans and the Natives A particularly important aspect of this fascinating collection is the way it demonstrates the interactive nature of the encounter and how Native peoples found ways to shape and adapt imported systems of spoken and written communication to their own spiritual and material needs

Mexican Spanish in the Twentieth Century Margarita Hidalgo, 2025-06-25 Mexican Spanish in the Twentieth Century explores the trends and patterns of sociolinguistic stratification and variation providing a clearer understanding of linguistic variation in Mexican Spanish as spoken in the twentieth century The connection between past and present is evidenced through language data on Mexican Spanish gathered from various sources The historical background of the nineteenth and twentieth centuries is revisited from the standpoint of stratification conflict and economic adjustments that fit within the model of modernity This book advances both theoretical and methodological applications deemed necessary to crafting new research perspectives in Latin American sociolinguistics and the sociology of language Seminal literary samples of Mexican and Latin American literature are presented systematically to exemplify the presence and vitality of linguistic variables along with their historical and social cultural context offering a comprehensible and digestible approach to this field of study Mexican Spanish in the Twentieth Century is a comprehensive volume for students and researchers of Hispanic linguistics dialectology and sociolinguistics It will appeal to readers with an interest in the diversity of Latin American Spanish
