Office of Education,1921 **General Linguistics** Francis P. Dinneen,1995 A comprehensive overview of the development of language studies from the ancient Greeks through modern theorists this book focuses on determining what the enduring issues in linguistics are what concepts have changed and why Francis P Dinneen SJ defines the basic terminology of the discipline as well as different linguistic theories and he frequently compares underlying assumptions in contemporaneous science and linguistics General Linguistics traces the history of linguistics from ancient Greek works on grammar and rhetoric through the medieval roots of traditional grammar and its assumption that there is a norm for correct speech Dinneen marks the beginning of modern linguistics with Saussure s concept of an autonomous linguistic structure independent of socially imposed norms and he details the theoretical contributions of Sapir Bloomfield Hjelmslev Chomsky Pike and others Dinneen considers the relative merits of the different theories and models evaluating their claims and shortcomings A thorough introduction to linguistics for newcomers to the field this book will also be valuable to linguists psychologists philosophers and historians of science for its evaluations of major theoretical concepts in light of enduring issues and problems in language studies

Writing and European Thought 1600-1830 Nicholas Hudson,1994-12-08 This book argues for the importance of writing to conceptions of language technology and civilization in the early modern era The Antiquary Edward Walford,John Charles Cox,George Latimer Apperson,1899 **English Literature in History** John Barrell,2025-08-01 In eighteenth century Britain the study of history was understood first and foremost as the study of

how states developed and lost their political coherence But at the same time writers preoccupied by contemporary social change were coming to believe that economic progress was largely dependent on an ever increasing variety of trades and occupations Could this highly differentiated society still be understood as unified and if so by whom Dr Barrell argues that these questions were of central importance not only to historians and social philosophers but also to poets novelists essayists and even writers of grammar and dictionaries First published in 1983 English Literature in History examines how in response to these questions an economic theory of society was developed out of an earlier political view of society as an area of conflicting interests which could be regulated by disinterested statesmen and gentlemen It shows how this new economic theory was perceived as a threat to the function and status of the gentleman whose character had to be redefined if his authority was to be legitimated Some of the ways in which this was achieved are traced in detailed analysis of the poetry of James Thomson and John Dyer and in the novels of Tobias Smollett A central chapter focusing on Johnson s Dictionary demonstrates how notions of correct English were used to confirm the status of the gentleman and to reinforce the authority of the ruling class
