*Contesting Transformation* Marcelle C. Dawson, Luke Sinwell, 2014-04-10 *Contesting Transformation* is a sober and critical reflection on the wave of social movement struggles which have taken place in post Apartheid South Africa Moving beyond a social movement scholarship that has tended to romanticise emergent movements this collection takes stock of the contradiction and complexity that is necessarily entangled in all forms of popular resistance Through an exploration of labour strikes legal organisations community protest and local government elections the contributors consider

how different movements conceive of transformation and assess the extent to which these understandings challenge the narrative of the ruling African National Congress ANC An empirically grounded analysis from a coterie of leading researchers and analysts Contesting Transformation is the definitive critical survey of the state of popular struggle in South Africa today

**Protests and Generations: Legacies and Emergences in the Middle East, North Africa and the Mediterranean**

,2017-04-18 The aim of Protests and Generations is to problematize the relations between generations and protests in the Middle East North Africa and the Mediterranean Most of the work on recent protests insists on the newness of their manifestation but leave unexplored the various links that exist between them and what preceded them Mark Muhannad Ayyash and Ratiba Hadj Moussa Eds argue that their articulation relies at once on historical ties and their rejection It is precisely this tension that the chapters of the book address in specifically documenting several case studies that highlight the generating processes by which generations and protests are connected What the production and use of generation brings to scholarly understanding of the protests and the ability to articulate them is one of the major questions this collection addresses Contributors are Mark Muhannad Ayyash Lorenzo Cini ric Gobe Ratiba Hadj Moussa Andrea Hajek Chaymaa Hassabo Gal Levy Ilana Kaufman Sunaina Maira Mohammad Massala Matthieu Rey G kb r Sarp Tanyildiz and Stephen Luis Vilaseca Protests and Generations is now available in paperback for individual customers **Neither Vertical nor**

**Horizontal** Rodrigo Nunes,2021-05-25 A decade ago a wave of mass mobilisations described as horizontal and leaderless swept the planet holding the promise of real democracy and justice for the 99% Many saw its subsequent ebb as proof of the need to go back to what was once called the question of organisation For something so often described as essential however political organisation remains a surprisingly under theorised field In this book Rodrigo Nunes proposes to remedy that lack by starting again from scratch Redefining the terms of the problem he rejects the confusion between organisation and any of the forms it can take such as the party and argues that organisation must be understood as always supposing a diverse ecology of different initiatives and organisational forms Drawing from a wide array of sources and traditions that include cybernetics poststructuralism network theory and Marxism Nunes develops a grammar that eschews easy oppositions between verticalism and horizontalism centralisation and dispersion and offers a fresh approach to enduring issues like spontaneity leadership democracy strategy populism revolution and the relationship between movements and parties

**Global Movement** Ruth Reitan,2013-10-18 Critical research and theorizing on the Anti or Alter Globalization Movement has exploded over the last two decades This volume provides a platform for scholar activists themselves to share insights from engaged research and to critically reflect on movement histories and internal dynamics It also highlights ways in which activists are reaching beyond their geographical and issue boundaries to link with others in struggle to construct a broader global movement of the left and beyond Case studies span the social movement spectrum from more traditional concerns with class the primacy of the labor movement economic redistribution and justice through the so called new movements of

identity and post materialist issues of peace the environment gender and indigenous struggles to the newest currents in post autonomy post anarchism and de or anti coloniality Together these studies show that what began in Chiapas with the Zapatista cry of basta ya as an anti globalization movement morphed for a time into alter globalization and global peace and justice and may now be emerging as a counter hegemonic project of and for global democratization This book was published as a special issue of Globalizations The Future Is Now: An Introduction to Prefigurative Politics Lara

**Sites of Dissent** Alissa Starodub, 2021-10-27 Contemporary articulations of dissent to social order and its production of truth cannot be ignored any longer Hamburg during the G20 gathering Washington D C on the day of Trump s inauguration the squares and streets of Paris and Tunis at the end of 2018 Public

space is temporarily taken by those who rise against the powers that keep structural oppression and social order in its place. Not only riots but collective social centres, protest camps and temporary as well as permanent occupations of lands and buildings are other utopian spatial alternatives created by autonomous social movements to prefigure a horizontal social organization. This book discusses spatial practices of autonomous social movements, the movements who see their everyday experiences and creations as the revolution they are making together with these movements and in taking the diversity of their articulations into account. *Sites of Dissent* is thus the story of a daring attempt to create research practices for radical transformation which requires a radical transformation of research practices. During this attempt, methodological rules of scientific research are broken and methodological heresy and wild experimentation with research practices take place. *Sites of Dissent* aims at opening new possibilities of including diverse ways of knowing and speaking into a collective knowledge creation process, at overcoming the individualized isolation in which the researcher produces knowledge about the outside world and it aims to create a space for collective learning about spatial practices of autonomous social movements to learn with and from the movements.

*American Antifa* Stanislav Vysotsky, 2020-07-09 Since the election of President Trump and the rise in racist and white supremacist activity, the militant antifascist movement known as antifa has become increasingly active and high profile in the United States. This book analyzes the tactics, culture and practices of the movement through a combination of social movement studies and critical criminological perspectives. Based on extensive fieldwork and interviews with activists, this book is the first scholarly sociological analysis of contemporary antifascist activism in the United States. Drawing on social movement studies, subculture studies and critical criminology, it explains antifa's membership, their ideology, strategy, tactics and use of culture as a weapon against the far right. It provides the most detailed account of this movement and also cuts through much of the mythology and common misunderstandings about it. This book will be of interest to scholars and students in sociology, political science, anthropology, criminology and history; however, a general audience would also be interested in the explanation of what drives antifa tactics and strategy in light of the high profile conflicts between fascists and antifascists.

*Digital Media and the Politics of Transformation in the Arab World and Asia* Carola Richter, Anna Antonakis, Cilja Harders, 2018-03-12 In times of increasing mediatization and digitalization, media play an important role in political and societal transformation processes. The authors of this volume take an actor-centered perspective to shed light on current cases in Arab and Asian countries. They inquire into the ways processes of networking and mobilization evolve in the context of restricted media systems and state-dominated public spheres. It features original research about various social and political actors such as women's rights activists, public intellectuals, anarchists and Islamists.

*Anarchy in Athens* Nicholas Apoifis, 2016-11-11 The battles between Athenian anarchists and the Greek state have received a high degree of media attention recently. But away from the intensity of street protests, militants implement anarchist practices whose outcomes are far less visible. They feed the hungry and poor, protect migrants from fascist beatings

and try to carve out an autonomous political social and cultural space Activists within the movement share politics centred on hostility to the capitalist state and all forms of domination hierarchy and discrimination Based on extensive ethnographic fieldwork among Athenian anarchists and anti authoritarians Anarchy in Athens unravels the internal complexities within this milieu and provides a better understanding of the forces that give the space its shape

**Transgression as a Mode of Resistance** Christina R. Foust,2010-06-22 Since industrialization two major theoretical perspectives have accompanied the vibrant practice of social change The first hegemony emerged as a less deterministic route to revolution from Marxist theory and forms the common sense of social movement today Within hegemonic resistance rhetoric links issues ideas and identities to form a recognizable collective agent whose aim is to transform the status quo into its vision of the world The second major mode of resistance transgression grows from anarchist and autonomous resistance to capitalism Transgression attempts to free individuals uniqueness and creative power by deconstructing authority and explicating the body in resistance

**Transgression as a Mode of Resistance** Rethinking Social Movement in an Era of Corporate Globalization provides the conceptual mapping for scholars students and practitioners to participate in the growing debate between these rich and powerful forces of social change Through a broad perspective on philosophy and history Christina R Foust demonstrates that hegemony and transgression are sometimes conflicting oftentimes inter related practices She responds to critics who believe that without a social change agent resistance appears baseless and na ve without a representational economy to cohere and express common interests social movement is impossible Through alternative social relationships and political performances transgressive resisters may reinvent daily life

**Design and Political Dissent** Jilly Traganou,2020-10-27 This book examines through an interdisciplinary lens the relationship between political dissent and processes of designing In the past twenty years theorists of social movements have noted a diversity of visual and performative manifestations taking place in protest while the fields of design broadly defined have been characterized by a growing interest in activism The book s premise stems from the recognition that material engagement and artifacts have the capacity to articulate political arguments or establish positions of disagreement Its contributors look at a wide array of material practices generated by both professional and nonprofessional design actors around the globe exploring case studies that vary from street protests and encampments to design pedagogy and community empowerment projects For students and scholars of design studies urbanism visual culture politics and social movements this book opens up new perspectives on design and its place in contemporary politics

**Transgression 2.0** Ted Gournelos,David J. Gunkel,2011-11-24 One doesn t need to look far to find examples of contemporary locations of cultural opposition Digital piracy audio mashups The Onion and Wikipedia are all examples of transgression in our current mediascape And as digital age transgression becomes increasingly essential it also becomes more difficult to define and protect The contributions in this collection are organized into six sections that address the use of new technologies to alter existing cultural messages the incorporation of technology and alternative media in

transformation of everyday cultural practices and institutions and the reuse and repurposing of technology to focus active political engagement and innovative social change Bringing together a variety of scholars and case studies *Transgression 2.0* will be the first key resource for scholars and students interested in digital culture as a transformative intervention in the types methods and significance of cultural politics
