Historia de la Conquista de México James Lockhart,1993 Historians are concerned today that the Spaniards early

accounts of their first experiences with the Indians in the Americas should be balanced with accounts from the Indian perspective. *We People Here* reflects that concern by bringing together important and revealing documents written in the Nahuatl language in sixteenth-century Mexico. James Lockhart's superior translation combines contemporary English with the most up-to-date nuanced understanding of Nahuatl grammar and meaning. The foremost Nahuatl conquest account is Book Twelve of the Florentine Codex. In this monumental work, Fray Bernardino de Sahagún commissioned Nahuas to collect and record in their own language accounts of the conquest of Mexico; he then added a parallel Spanish account that is part summary, part elaboration of the Nahuatl. Now for the first time, the Nahuatl and Spanish texts are together in one volume, with on-page English translations and reproductions of the copious illustrations from the Codex. Also included are five other Nahuatl conquest texts. Lockhart's introduction discusses each one individually, placing the narratives in context.

Amplifications of Black Sound from Colonial Mexico Sarah Finley, 2024-08-15 Thinkers like W. E. B. Du Bois and Paul Gilroy have long championed sound as an affective register of Black subjectivity, particularly in the African Atlantic. Prior studies in this vein focus on Anglophone or Caribbean contexts, a tendency that furthers Mexico's marginalization within narratives of the Black and African diaspora and mutes Afro-descendant traditions that date back to the sixteenth century. Indeed, the New Spanish archive contains whispers of the region's Black sound cultures, including monetary records for the voices of enslaved singers and representations of Black music in casta paintings. Despite such evidence, it is difficult to attend fully to these subaltern voices for the cultural filters of the lettered elite often mute or misinterpret non-European sounds. *Amplifications of Black Sound from Colonial Mexico* is the first extensive study of Afro-descendant sonorities in New Spain or elsewhere in colonial Latin America. In this context, it attends to Black sounds through a framework that remixes Jacques Derrida's reading of the ear's anatomy with theories like Gilroy's lower frequencies or Fred Moten's phonic materiality. Sarah Finley's aim is to unsettle the divide between self and other so the auditory archive might emerge as a polyphonic record that exceeds dichotomies of sounding object, listening subject. Through sampling the Afro-descendant sounds of this archive, this book recovers and rearticulates Black voices and auditory practices in New Spain. *Columbus Dictionary* Foster Provost, 1991 A pre-product of the impending Columbus Quincentenary identifies individuals, people, palaces, and other topics mentioned not only in Columbus's writings but in the secondary studies about him.
