colonising Asian countries In 2005 some 17.8 million Japanese travelled overseas across Europe Asia the South Pacific and America In recent times however tourist demands are fast growing in other Asian countries such as Korea and China Japan is not only consuming other Asian societies and cultures it is also being consumed by them in tourist contexts This book considers the patterns of travelling of the Japanese examining travel inside and outside the Japanese archipelago and how tourist demands inside influence and shape patterns of travel outside the country Overall this book draws important insights for understanding the phenomenon of tourism on the one hand and the nature of Japanese society and culture on the other
