GPS for Everyone L. Casey Larijani, 1998 In a few years time GPS receiving devices will be as ubiquitous as cell phones are today This plain English guide contains a full glossary with over 500 terms a full bibliographic reference and appendices on the history of navigation time and technology triangulation and vendors Beginning with the basics such as GPS satellites and signals this book also discusses the popular uses of GPS such as devices for transportation Also included are the technical uses for GPS such as defence cartography and surveying as well as costs and world wide commercial opportunities

Fundamentals of Cartography (Second Revised and Enlarged Edition) R.P. Misra, 2014-01-01 The first edition of Fundamentals of Cartography was published in 1969 by Prasaranga University of Mysore It was reprinted by the Concept Publishing Company New Delhi in While the book remained in currency the cartographic processes changed drastically when information technology brought a sea of change in the sources of information drafting of maps and printing processes Drawing maps by hand became obsolete surveying whether ground or aerial was no longer the only major source of information In view of these changes it became necessary to bring out a new edition Realising that unless one knows directions scales projections coordinates ground and air surveys one would fail to understand the proper use of modern information technology in the drawing the maps Thus the contents of 1969 edition are retained and new chapters have been added to update the book In Part II of the book a chapter on Remote Sensing and Satellite Imageries has been added and Part V contains chapters on Computer Aided Cartography Geographic Information System GIS Land Information System LIS and Global Positioning System GPS
