Trudeau, 1993-04 Criticism of the most significant and widely studied dramatic works from all the world s literatures Voicing the Text Petra Ragnerstam, 2016-08-17 Why is voice so important to us How does the concept of voice encompass such disparate practices as vocal sound marks on a page identity production and the execution of power With these questions in mind this book studies voice as both a textual and a bodily phenomenon By using both drama and film and by exploring the translation between the two this study shows that voice can be placed in a grid where the subject body language and power interconnect

in ways that question established ideas concerning voice what it is and what it can do The book investigates how voice as an expression of the individual subject is central in the fight for power in plays such as *The Crucible* by Arthur Miller Amiri Baraka's *Dutchman* and Ntozake Shange's *for colored girls who have considered suicide where voice is seen as fundamental for political action* However it also questions the seemingly failsafe connection between voice and the subject In Eugene O'Neill's *Strange Interlude* the relation between voice and thought is neither harmonious nor given and thus voice becomes something other than an expression of subjective interiority The discussion of Clare Booth's *The Women* highlights how voice in ironic discourse disrupts notions of intentionality subjectivity and power in ways that destabilize preconceived notions of voice Lastly the chapter on David Mamet's *Glengarry Glen Ross* asks if voice really can empower the subject in an age where processes of reification have invaded the subject's consciousness including the ability to communicate
