Dr. David Murray Benjamin Duke, 2019-06-21 This is the first biography in English of an uncommon American. Dr. David Murray, a professor of mathematics at Rutgers College, who was appointed by the Japanese government as Superintendent of Education in the Empire of Japan in 1873. The founding of the Gakusei, the first public school system launched in Japan, marks the beginning of modern education in Japan, accommodating all children of elementary school age. Murray's unwavering commitment to its success renders him an educational pioneer in Japan in the modern world. Benjamin Duke has compiled this comprehensive biography of David Murray to showcase Murray's work both in assisting around 100 samurai students in their studies at Rutgers and in his unprecedented role in early Japanese-American relations. This fascinating story uncovers a little-known link between Rutgers University and Japan, and it is the only book to conclude that Rutgers made a greater contribution to the development of modern education in the early Meiji Era than any other non-Japanese college or university in the world.
