Grammaire Methodique Du Français:

Grammaire méthodique du Français Martin Riegel, 1994 Grammaire méthodique de français, 2021 **L'adjectif en français** Michèle Noailly, 1999 **Grammaire méthodique de français et exercices pratiques** Joseph Roboly, 1988

Vocabulaire grammatical de la langue française B. Jullien, 1852 Une syntaxe du sensible David Zemmour, 2008

Métalangage et terminologie linguistique Bernard Colombat, Marie Savelli, 2001 Interprétation Lidia Frączak, Franck Lebas, 2007 The Oxford Handbook of the French Language Wendy Ayres-Bennett, Mairi

McLaughlin, 2024-07-08 This volume provides the first comprehensive reference work in English on the French language in all its facets. It offers a wide ranging approach to the rich varied and exciting research across multiple subfields with seven broad thematic sections covering the structures of French, the history of French, axes of variation, French around the world, French in contact with other languages, second language acquisition and French in literature, culture, arts and the media. Each chapter presents the state of the art and directs readers to canonical studies and essential works while also exploring cutting edge research and outlining future directions. The Oxford Handbook of the French Language serves both as a reference work for people who are curious to know more about the French language and as a starting point for those carrying out new research on the language and its many varieties. It will appeal to undergraduate and graduate students as well as established scholars whether they are specialists in French linguistics or researchers in a related field looking to learn more about the language. The diversity of frameworks, approaches and scholars in the volume demonstrates above all the variety, vitality and vibrancy of work on the French language today. Variation and Change in French Morphosyntax Anna Tristram, 2017-07-05

Collective nouns such as *asmajorite* or *foule* have long been of interest to linguists for their unusual semantic properties and provide a valuable source of new data on the evolution of French grammar. This book tests the hypothesis that plural agreement with collective nouns is becoming more frequent in French. Through an analysis of data from a variety of sources including sociolinguistic interviews, gap fill tests and corpora, the complex linguistic and external factors which affect this type of agreement are examined, shedding new light on their interaction in this context. Broader questions concerning the methodological challenges of studying variation and change in morphosyntax and the application of sociolinguistic generalisations to the French of France are also addressed. **Oral Narration in Modern French** Janice

Carruthers, 2017-12-02 Storytelling is a universal human activity and oral narration, particularly modern conversational narration such as anecdotes or personal stories, has long been fertile ground for linguists working on tense usage across a variety of languages. This book introduces performed oral storytelling into the debate, using data from traditional and contemporary storytellers in French to explore the narrative tenses, attested discourse pragmatic effects of tense switching, the structures deployed at points of temporal sequence as well as broader questions concerning the nature of oral discourse. *Manual of Romance Word Classes* Anna-Maria De Cesare, Giampaolo Salvi, 2024-09-02 Word classes are

linguistic categories serving as basis in the description of the vocabulary and grammar of natural languages While important publications are regularly devoted to their definition identification and classification in the field of Romance linguistics we lack a comprehensive state of the art overview of the current research This Manual offers an updated and detailed discussion of all relevant aspects related to word classes in the Romance languages In the first part word classes are discussed from both a theoretical and historical point of view The second part of the volume takes as its point of departure single word classes described transversally in all the main Romance languages while the third observes the relevant word classes from the point of view of specific Romance based varieties The fourth part explores Romance word classes at the interface of grammar and other fields of research The Manual is intended as a reference work for all scholars and students interested in the description of both the standard major Romance languages and the smaller lesser described Romance based varieties

Multiple Voices in Academic and Professional Discourse Sergio Maruenda Bataller, 2011-05-25 The demands of today's society for greater specialization have brought about a profound transformation in the humanities which are not immune to the competitive pressure to meet new challenges that are present in other sectors Thus lecturers and researchers in modern languages and applied linguistics departments have made great efforts to design syllabi and materials more attuned to the competences and requirements of potential working environments At the same time linguists have attempted to apply their expertise in wider areas creating research institutes that focus on applying language and linguistics in different contexts and offering linguistic services to society as a whole This book attempts to provide a global view of the multiple voices involved in interdisciplinary research and innovative proposals in teaching specialized languages while offering contributions that attempt to fill the demands of a varied scope of disciplines such as the sciences professions or educational settings The chapters in this book are made up of current research on these themes discourse analysis in academic and professional genres specialized translation lexicology and terminology and ICT research and teaching of specialized languages

Teaching Foreign Languages Georgeta Rață, 2010-08-11 Teaching Foreign Languages Languages for Special Purposes is a collection of essays which will appeal to teachers of modern languages no matter the level of instruction The essays deal with three main approaches of the teaching of languages for special purposes in Europe Asia and Africa theoretical linguistics lexis French vocabulary and semantics French copulative verbs descriptive linguistics compared linguistics English Romanian English Serbian French Romanian French Serbian and German Macedonian and applied linguistics language acquisition English in Romania and Spanish in Serbia language education Arabic in Italy English in Bosnia Herzegovina Croatia Iran Malaysia Russia Serbia and the United Arab Emirates German in Serbia lexicography English French Romanian Ruthenian and Serbian stylistics English French and Spanish and translation English Italian and Romanian

Manual of Deixis in Romance Languages Konstanze Jungbluth, Federica Da Milano, 2015-10-16 Deixis as a field of research has generated increased interest in recent years It is crucial for a number of different subdisciplines pragmatics

semantics cognitive and contrastive linguistics to name just a few The subject is of particular interest to experts and students philosophers teachers philologists and psychologists interested in the study of their language or in comparing linguistic structures The different deictic structures not only the items themselves but also the oppositions between them reflect the fact that neither the notions of space time person nor our use of them are identical cross culturally This diversity is not restricted to the difference between languages but also appears among related dialects and language varieties This volume will provide an overview of the field focusing on Romance languages but also reaching beyond this perspective Chapters on diachronic developments language change comparisons with other non European languages and on interfaces with neighboring fields of interest are also included The editors and authors hope that readers regardless of their familiarity with Romance languages will gain new insights into deixis in general and into the similarities and differences among deictic structures used in the languages of the world
