offers much more than only sandy white beaches and crystal clear water all year long These new tourism products focus on the natural resources of the island in its interior where the original life of indigenous people still can be witnessed Products like rural tourism activity tourism or golf tourism are becoming here more and more importance Until now only La Gomera and El Hierro are known for their alternative vacation offers within the Canary Islands But this may change as the island opens its doors for a new type of traveller through a very diverse tourist offer than the island was known for since years There have been many ups and downs in the tourism development of the island in the last years but it seems like if the island learned from its mistakes in the past and found a different way for its future tourist development A new age of tourism is about to come for Gran Canaria The objective of this paper is to introduce the reader to the term alternative tourism by portraying the particularities of this kind of tourism and show off the *Gran Canaria Environment* Sam
