Harnessing The Technicolor Rainbow Harnessing The Technicolor Rainbow:

Harnessing the Technicolor Rainbow Scott Higgins, 2007-12-01 Like Dorothy waking up over the rainbow in the Land of Oz Hollywood discovered a vivid new world of color in the 1930s The introduction of three color Technicolor technology in 1932 gave filmmakers a powerful tool with which to guide viewers attention punctuate turning points and express emotional subtext Although many producers and filmmakers initially resisted the use of color Technicolor designers led by the legendary Natalie Kalmus developed an aesthetic that complemented the classical Hollywood filmmaking style while still offering innovative novelty By the end of the 1930s color in film was thoroughly harnessed to narrative and it became elegantly expressive without threatening the coherence of the film s imaginary world *Harnessing the Technicolor Rainbow* is the first scholarly history of Technicolor aesthetics and technology as well as a thoroughgoing analysis of how color works in film Scott Higgins draws on extensive primary research and close analysis of well known movies including *Becky Sharp* *A Star Is Born* *Adventures of Robin Hood* and *Gone with the Wind* to show how the Technicolor films of the 1930s forged enduring conventions for handling color in popular cinema He argues that filmmakers and designers rapidly worked through a series of stylistic modes based on the demonstration restraint and integration of color and shows how the color conventions developed in the 1930s have continued to influence filmmaking to the present day Higgins also formulates a new vocabulary and a method of analysis for capturing the often elusive functions and effects of color that in turn open new avenues for the study of film form and lay a foundation for new work on color in cinema *Harnessing the Rainbow* Scott P. Higgins, 2000

study of film form and lay a foundation for new work on color in cinema **Places of Invention** Arthur P. Molella, Anna Karvellas, 2015-06-30 The companion book to an upcoming museum exhibition of the same name Places of Invention seeks to answer timely questions about the nature of invention and innovation What is it about some places that sparks invention and innovation Is it simply being at the right place at the right time or is it more than that How does place whether physical social or cultural support constrain and shape innovation Why does invention flourish in one spot but struggle in another even very similar location In short Why there Why then Places of Invention frames current and historic conversation on the relationship between place and creativity citing extensive scholarship in the area and two decades of investigation and study from the National Museum of American History's Lemelson Center for the Study of Invention and Innovation The book is built around six place case studies Hartford CT late 1800s Hollywood CA 1930s Medical Alley MN 1950s Bronx NY 1970s Silicon Valley CA 1970s 1980s and Fort Collins CO 2010s Interspersed with these case studies are dispatches from three learning labs detailing Smithsonian Affiliate museums work using Places of Invention as a model for documenting local invention and innovation Written by exhibition curators each part of the book focuses on the central thesis that invention is everywhere and fueled by unique combinations of creative people ready resources and inspiring surroundings Like the locations it explores Places of Invention shows how the history of invention can be a transformative lens for understanding local history and cultivating creativity on scales of place ranging from the personal to the national and beyond Colour Films in Britain Sarah Street, 2019-07-25 How did the coming of colour change the British film industry Unlike sound the arrival of colour did not revolutionise the industry overnight For British film makers and enthusiasts colour was a controversial topic While it was greeted by some as an exciting development with scope for developing a uniquely British aesthetic others were deeply concerned How would audiences accustomed to seeing black and white films which were commonly regarded as being superior to their garish colour counterparts react Yet despite this initial trepidation colour captivated many British inventors and film makers Using different colour processes these innovators produced films that demonstrated remarkable experimentation and quality Sarah Street's illuminating study is the first to trace the history of colour in British cinema and analyses the use of colour in a range of films both fiction and non fiction including The Open Road The Glorious Adventure This is Colour Blithe Spirit This Happy Breed Black Narcissus The Red Shoes The Tales of Hoffmann and Moulin Rouge Beautifully illustrated with full colour film stills this important study provides fascinating insights into the complex process whereby the challenges and opportunities of new technologies are negotiated within creative practice The book also includes a Technical Appendix by Simon Brown Kingston University UK which provides further details of the range of colour processes used by British film makers *A Hidden History of Film Style* Christopher Beach, 2015-05-01 The image that appears on the movie screen is the direct and tangible result of the joint efforts of the director and the cinematographer A Hidden History of Film Style is the first study to focus on the collaborations between

directors and cinematographers a partnership that has played a crucial role in American cinema since the early years of the silent era Christopher Beach argues that an understanding of the complex director cinematographer collaboration offers an important model that challenges the pervasive conventional concept of director as auteur Drawing upon oral histories early industry trade journals and other primary materials Beach examines key innovations like deep focus color and digital cinematography and in doing so produces an exceptionally clear history of the craft Through analysis of several key collaborations in American cinema from the silent era to the late twentieth century such as those of D W Griffith and Billy Bitzer William Wyler and Gregg Toland and Alfred Hitchcock and Robert Burks this pivotal book underlines the importance of cinematographers to both the development of cinematic technique and the expression of visual style in film *The Practice of Light* Sean Cubitt, 2014-09-05 An account of Western visual technologies since the Renaissance traces a history of the increasing control of light s intrinsic excess Light is the condition of all vision and the visual media are our most important explorations of this condition The history of visual technologies reveals a centuries long project aimed at controlling light In this book Sean Cubitt traces a genealogy of the dominant visual media of the twenty first century digital video film and photography through a history of materials and practices that begins with the inventions of intaglio printing and oil painting Attending to the specificities of inks and pigments cathode ray tubes color film lenses screens and chips Cubitt argues that we have moved from a hierarchical visual culture focused on semantic values to a more democratic but value free numerical commodity Cubitt begins with the invisibility of black then builds from line to surface to volume and space He describes Rembrandt s attempts to achieve pure black by tricking the viewer and the rise of geometry as a governing principle in visual technology seen in D rer Hogarth and Disney among others He finds the origins of central features of digital imaging in nineteenth century printmaking examines the clash between the physics and psychology of color explores the representation of space in shadows layers and projection discusses modes of temporal order in still photography cinema television and digital video and considers the implications of a political aesthetics of visual technology *Sabu* Michael Lawrence, 2019-07-25 The first Indian to become an international film star Sabu rose to fame as a child actor in *Elephant Boy* 1937 and subsequently appeared in a succession of British pictures before relocating to Hollywood where he died in 1963 Repeatedly cast in orientalist extravaganzas and jungle thrillers he was associated with the exotic and the primitive in ways that reflected contemporary attitudes towards India and the East more generally In this captivating study Michael Lawrence explores the historical political cultural contexts of Sabu s popularity as a star and considers the technological and industrial shifts that shaped his career from the emergence of Technicolor in the late 1930s to the breakdown of the studio system in the 1950s Attending to the detail of Sabu s distinctively physical performances Lawrence shows how his agency as an actor enabled him to endure exceed and exploit his unique star image *Color and the Moving Image* Simon Brown, Sarah Street, Liz Watkins, 2013-10-28 This new AFI Film Reader is the first comprehensive collection of original essays on the use of

color in film Contributors from diverse film studies backgrounds consider the importance of color throughout the history of the medium assessing not only the theoretical implications of color on the screen but also the ways in which developments in cinematographic technologies transformed the aesthetics of color and the nature of film archiving and restoration *Color and the Moving Image* includes new writing on key directors whose work is already associated with color such as Hitchcock Jarman and Sirk as well as others whose use of color has not yet been explored in such detail including Eric Rohmer and the Coen Brothers This volume is an excellent resource for a variety of film studies courses and the global film archiving community at large

Free and Easy? Sean Griffin, 2017-05-25 *A History of the American Musical* narrates the evolution of the film musical genre discussing its influences and how it has come to be defined the first text on this subject for over two decades it employs the very latest concepts and research The most up to date text on the subject with uniquely comprehensive coverage and employing the very latest concepts and research *Surveys* centuries of music history from the music and dance of Native Americans to contemporary music performance in streaming media Examines the different ways the film musical genre has been defined what gets counted as a musical why and who gets to make that decision The text is written in an accessible manner for general cinema and musical theatre buffs whilst retaining theoretical rigour in research Describes the contributions made to the genre by marginalized or subordinated identity groups who have helped invent and shape the musical
