Watsuji Tetsurô's Global

Ethics of Emptiness Anton Luis Sevilla, 2017-08-31 This book is a rethinking of ethics and socio political life through the ideas of Watsuji Tetsur. Can we build a systematic philosophy of morality, society and politics not on the basis of identity and ego but rather on the basis of selflessness? This book explores such an attempt by the leading ethicist of modern Japan. Using concrete examples and contemporary comparisons and with careful reference to both English and Japanese sources it guides the reader through Watsuji's ideas. It engages three contemporary issues in depth. First, how do we approach the moral agent as an autonomous being or as a fundamentally relational being? Second, is it the individual or the community that is the starting point for politics? And finally, is ethics something that is globally shared or something fundamentally local? This book aims to be an informative and inspiring resource for researchers, students and laypersons interested in Buddhist thought.

Anthropology Matters, Third Edition Shirley A. Fedorak, 2017-04-05 The third edition of this bestselling book introduces readers to anthropology and the world around it by connecting important concepts to current global issues. As well, two new chapters, one on global responsibility for refugees and the other on human trafficking as a form of modern-day slavery, make the text particularly relevant. *The SAGE Handbook of Evolutionary Psychology* Todd K.

introdutivă presupune în esență o formă de contract cu cititorul. Acesta se așteaptă ca autorul să dezvolte răspunsuri la principalele întrebări pe care un novice și le poate adresa. Cu siguranță lucrările introductive de antropologie culturală nu trebuie să constituie o excepție. În primul rând autorul unei asemenea cărți trebuie să prezinte clar ce este antropologia generală care sunt principalele domenii ale sale și care sunt subiectele tratate în fiecare domeniu. Apreciez că este totodată necesară prezentarea unor aspecte ce țin de istoria și filosofia antropologiei. Fără a cunoaște trecutul disciplinei nu se poate înțelege utilitatea și evoluția ei. În al doilea rând autorul trebuie să evidențieze aparatul teoretic și să prezinte terminologia specifică antropologiei. În al treilea rând este necesară expunerea detaliată a metodelor și tehnicilor intrinseci antropologiei.

The Naturally Good Man Rod E. Keays, 2013-03-13 Men inherit definitions about manhood but many of these definitions no longer fit. A society that was once based on power assumptions and stereotypes is changing. Few people take time to learn about the history of male oppression, the foundations of male masculinity and the evolution of the modern man. Join author Rod E. Keays as he examines these important topics and more including why boys and men accept certain roles, why men bully each other, why it's important to deal with emotions and why it's so hard for men to talk about sexuality. Keays explores his own experiences coping with the twists and turns that come with being a man. One thing he learns early on is that most men don't talk about their emotional highs and lows. As someone who likes to talk openly and frankly, he feels isolated but he continues living life on his terms. Discover what good men have been doing for thousands of years and how men's groups can help men achieve their goals. The world may have its share of problems but The Naturally Good Man continues to contribute to society.

Communication Between Cultures Larry A. Samovar, Richard E. Porter, 1995 This text gives students an understanding and appreciation of different cultures and provides them with the practical skills for improving their communication with people from other cultures. It provides excellent motivation for students through compelling and numerous examples that force them to examine their own assumptions and cultural biases. The text is organized into three parts: the first defines both communication and culture and then makes the argument that intercultural communication is behavior that can be learned. The second part takes the elements of communication such as perception, listening, verbal and non-verbal communication and shows how those elements vary among different cultures. The authors then focus on these elements within contexts of business and education. The final part addresses the future of intercultural communication.
