**Math Principles for Food Service Occupations** Anthony J. Strianese, 2011-02 MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS International Edition stresses the direct relevance of math skills in the food service industry while teaching the basic math principles that affect everything from basic recipe preparation to managing food and labor costs in a restaurant operation. All the mathematical problems and concepts presented are explained in a simplified logical step by step manner. New to this edition, illustrations in full color add visual appeal to the text and help culinary students to master important concepts. Now in its 6th edition, this book demonstrates the importance of understanding and using math concepts to effectively make money in this demanding business. Part 1 explains how to use the calculator. Part 2 reviews basic math fundamentals. The following parts address math essentials and cost controls in food preparation and math essentials in food service record keeping while the last part of the book concentrates on managerial math. New topics to this 6th edition include controlling beverage costs, clarifying and explaining the difference between fluid ounces and avoirdupois ounces, and an entire new section on yield testing and how to conduct these tests. There are new methods using helpful memory devices and acronyms to help readers remember procedures and formulas such as BLT NO and the Big Ounce. New strategies and charts are also shown and explained on how to use purchases in order to control food and beverage costs and how transfers affect food and beverage costs. In addition, sections have been added on how to control costs using food or liquor or labor cost percentage guidelines. The content in MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS International Edition meets the required knowledge and competencies for business and math skills as required by the American Culinary Federation.

**Math Principles for Food Service Occupations** Haines, 1995      **Math Principles for Food Service Occupations** Robert G. Haines, 1988. Virtually all of the decisions made in the food industry are based on mathematical calculation to some degree. Math Principles for Food Service Occupations is a uniquely practical worktext providing aspiring and veteran food service professionals alike with the mathematical tools they will need to continued success in the industry.
