U.S. Government Research & Development Reports, 1968 **Government Reports Announcements & Index**, 1993-08 **Subtle is the Lord** Abraham Pais, 2005-08-25 Subtle is the Lord is widely recognized as the definitive scientific biography of Albert Einstein The late Abraham Pais was a distinguished physicist turned historian who knew Einstein both professionally and personally in the last years of his life His biography combines a profound understanding of Einstein's work with personal recollections from their years of acquaintance illuminating the man through the development of his scientific thought Pais examines the formulation of Einstein's theories of relativity his work on Brownian motion and his response to quantum theory with authority and precision The profound transformation Einstein's ideas effected on the physics of the turn of the century is here laid out for the serious reader Pais also fills many gaps in what we know of Einstein's life his interest in philosophy his concern with Jewish destiny and his opinions of great figures from Newton to Freud This remarkable volume written by a physicist who mingled in Einstein's scientific circle forms a timeless and classic biography of the towering figure of twentieth century science **Exceptional Child Education Abstracts**, 1969 **Proceedings of the 1989 ACM Symposium on Parallel Algorithms and Architectures, June 18-21, 1989, Santa Fe, New Mexico**, 1989 SPAA, 1989 **The Literary Guide and Rationalist Review**, 1955 Bibliography of Scientific and Industrial Reports, 1969-05 Resources in Education, 1990 **Research in Education**, 1973 *China* World Bank, 1993 The Republic of Korea's industrial policy has directed that nation's economy through nearly three decades of spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy's structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts **Documentation (unclassified Title)** Defense Documentation Center (U.S.), 1961 **U.S. Government Research & Development Reports**, 1967-10 **International Books in Print**
