Approaches to Teaching Stoker's Dracula William Thomas McBride, 2025-03-03 This volume helps teachers contextualize Bram Stoker's *Dracula* in its historical and cultural moment considering psychology technology gender roles colonialism and anxieties about the other It also situates the novel among the kindred texts that have proliferated since its publication from film and television to the growing genre of vampire novels Essays explore the novel in terms of medical humanities contagion and the gothic as well as ethnicity identity and race Contributors analyze *Dracula* in the context of various ancient and modern cultural productions including classical Indian aesthetics and African American vampire literature and describe a broad range of classroom settings including a technical university a Hispanic serving institution and others [Science and Social Science in Bram Stoker's Fiction](#) Carol A. Senf, 2002-10-30 Best known today as the author of *Dracula* Bram Stoker also wrote several other works including *The Jewel of Seven Stars* *Lady Athlyne* and *The Lair of the White Worm* In his exploration of supernatural subjects such as vampirism he is clearly a Gothic writer The fantastic elements of his novels seem very much at odds with the world of science Stoker nonetheless draws upon a large body of scientific theory and technological innovation throughout his writings This book studies his blending of Gothic subjects with emerging discoveries in science and technology The volume begins with an overview of Stoker's familiarity with scientific and technical developments It then examines the role of science and technology in his various works which demonstrate his familiarity with civil engineering anthropology physics chemistry and archaeology While many of his writings seem to offer a rather uncritical celebration of science and its applications some works such as *The Jewel of Seven Stars* reveal what happens when science oversteps its bounds Stoker emerges as an early writer of science fiction whose work thoughtfully considers the place of science in society [The Vampire Goes to College](#) Lisa A.
