

The background of the cover is a high-magnification scanning electron micrograph (SEM) showing a complex, three-dimensional pattern of thin film deposition. The pattern consists of numerous parallel, elongated, and slightly curved ridges or fingers that are interconnected, creating a maze-like or honeycomb-like structure. The ridges have a granular, textured surface, while the spaces between them are deep and dark, creating a strong sense of depth and relief. The overall color palette is a range of browns, from light tan to deep, almost black shadows.
