Visible Learning for Mathematics, Grades K-12 John Hattie, Douglas Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William Mellman, 2016-09-15 Rich tasks collaborative work number talks problem based learning direct instruction with so many possible approaches how do we know which ones work the best In *Visible Learning for Mathematics* six acclaimed educators assert it's not about which one it's about when and show you how to design high impact instruction so all students demonstrate more than a year's worth of mathematics learning for a year spent in school That's a high bar but with the amazing K-12 framework here you choose the right approach at the right time depending upon where learners are within three phases of learning surface deep and transfer This results in visible learning because the effect is tangible The framework is forged out of current research in mathematics combined with John Hattie's synthesis of more than 15 years of education research involving 300 million students Chapter by chapter and equipped with video clips planning tools rubrics and templates you get the inside track on which instructional strategies to use at each phase of the learning cycle

Surface learning phase When through carefully constructed experiences students explore new concepts and make connections to procedural skills and vocabulary that give shape to developing conceptual understandings

Deep learning phase When through the solving of rich high cognitive tasks and rigorous discussion students make connections among conceptual ideas form mathematical generalizations and apply and practice procedural skills with fluency

Transfer phase When students can independently think through more complex mathematics and can plan investigate and elaborate as they apply what they know to new mathematical situations To equip students for higher level mathematics learning we have to be clear about where students are where they need to go and what it looks like when they get there

Visible Learning for Math brings about powerful precision teaching for K 12 through intentionally designed guided collaborative and independent learning **Guerrilla Learning** Grace Llewellyn,Amy Silver,2008-05-02 GUERRILLA LEARNING IS CREATING A HOME ENVIRONMENT THAT FILLS YOUR CHILD WITH THE JOY OF LEARNING Let your daughter read her library books instead of finishing her homework Ask your eleven year old s beloved third grade teacher to comment on his poetry Invite a massage therapist to dinner because your daughter wants to go to massage school instead of college Give your child the freedom to pursue his interests develop her strengths cultivate self discipline and discover the joy of learning throughout life If you ve ever felt that your child wasn t flourishing in school or simply needs something the professionals aren t supplying you re ready to become a guerrilla educator Revolutionary and inspiring Guerrilla Learning explains what s wrong and what s useful about our traditional schools and shows you how to take charge of your family s education to raise thinking creative young people despite the constraints of traditional schooling Filled with fun and exciting exercises and projects to do with children of all ages this remarkable approach to childhood education and life will help you release your child s innate abilities and empower him or her in the wider world that awaits beyond the school walls
