Matilda picks the animals from the basket and lines them up on the table. "1,2,3,4,5,6" Matilda says and she points and counts to them one by one. Julia walks over "Can I play" she asks. "No, I'm doing it" Matilda replies and Julia walks off.

Matilda sits next to Lachlan and takes the lump of play dough in front of her. Lachlan puts the basket of tools next to him. Matilda gets off her seat, walks around Lachlan and picks up a playdough tool to use, sits back down and continues with her playdough.

Sarah, Jenna and Janelle are in care today. Matilda smiles as she sees them walk in with their parents in the morning. Matilda spends the day with all three of her peers, laughing, playing and interacting with them.

Interpretation

It is evident that Matilda enjoys moments of solitude during her play and works well within a team and co-operatively with others with her chosen peers.

It's important that we provide Matilda with experiences such as group games to get her involved and interacting with all peers within the room. This will enable her to demonstrate trust and confidence with all those involved during play.

A Handbook for Educators, Counsellors and Health Care Professionals N.H. Hadley, 2013-06-29 Undeniably language is at the core of human existence. Merleau Ponty 1945 posited that thought and language are one, cognition being language, language cognition. Although such a categorical stance can be challenged from a number of theoretical perspectives as dogmatic and nonveridical, the critical role of language in humanness is irrefutable. It is what defines and distinguishes creatures at the apex of the phylogenetic scale. The fact that cognition predates verbal fluency and can take various

nonverbal forms does not diminish the pivotal role of language it is a functional requisite an imperative More than a mere vehicle to express thought it transforms modifies and shapes much of cognition It cannot be trivialized On many grounds man is capably rivalled by lower forms of existence the gazelle is more graceful the lion is stronger the cheetah is fleeter It is through his use of symbols that man usurps the ascendant position Cassirer in *Essay on Man* 1946 described man as animal symbolicum the animal that creates symbols and a symbolic world Through language humans transcend time and are able to describe events temporally removed to reflect on the past to conjecture the future With words man can paint pictures muse and dream embrace and console persuade and corrupt educate and be educated Language is a preferred performatory domain nowhere more than in Western Civilization *The Heath Handbook of Composition* Langdon Elsbree, Nell Altizer, Paul V.
