me smile This book asks questions about our origins our destiny and our place in the universe We have no right to expect answers we have no right to even ask But ask and wonder we do Human Universe is first and foremost a love letter to humanity a celebration of our outrageous fortune in existing at all I have chosen to write my letter in the language of science because there is no better demonstration of our magnificent ascent from dust to paragon of animals than the exponentiation of knowledge generated by science Two million years ago we were apemen Now we are spacemen That has happened as far as we know nowhere else That is worth celebrating *Human Universe And Other Essays* Charles Olson,1867 **Human Universe and Other Essays** Charles Olson,1967 *Man and His Universe* John Langdon-Davies,1950 *A Huge Universe and Small Human!* Harshal S. Aher,2016-10-17 Live your future keep past aside and with me now learn to drive your today *The Human Universe* Henry Tompkins,1952 **The 9 Realities of Stardust** Bruce Grether,2017-12-13 THE 9 REALITIES OF STARDUST is a radical presentation of a new scientific animism yet its content may seem in many ways quite familiar as it stirs deep memories and associations within you to remind you of the wonder the awe and the enthusiasm that lives at your core The author empowers you while reminding you of much you probably knew as a small child and of many things your Ancestors understood directly from their connection with Nature and the world they lived in In today s world fraught with new forms of corporate media control and also increasing opportunities to employ the godlike powers of cutting edge technology one crucial process is that we must get back to the Garden We cannot go backwards but in order to save our species and our planet from unconscious threats we need to explore anew the concepts of matter energy and spirit This begins as we grasp that indeed We are stardust *Cargo 3120: Ties that Bind* Aaron Walker,2021-07-22 In the year 3120 Marcus La Dek leaves the brutal life of a mercenary a life he barely survived He returns home to keep the family s interstellar shipping business afloat and care for an ailing niece In desperate need of money Marcus embarks on what was supposed to be a simple cargo run but ends up at the center of a galactic conflict that s fueled by politics organized crime and a mysterious alien race to which someone close to him has an ominous connection
