Grayson,2016-04-07 No one saw it coming No pundit no pollster and no political leader predicted David Cameron's Conservative Party would win a majority of seats in Parliament and his three main opponents would resign as party leaders The consequences of the coalition also became clear as the Liberal Democrats fell dramatically from grace and lost their spot as Britain's third party And despite Scotland voting NO to independence in 2014 the election result also threatens the Union with the Scottish National Party winning all but three of the country's seats In this timely edition Richard S Grayson analyses Britain's changing political landscape and explores the role of the media the European Union and the UK's special relationship with the US Thorough and incisive *British Politics A Beginner's Guide* is the perfect introduction to the structure parties and personalities of British Government today *A Bibliography of Jewish Education in the United States* Norman Drachler,2017-12-01 Entries from thousands of publications whether in English Hebrew Yiddish and German on all aspects of Jewish education from pre school through secondary education This book contains entries from thousands of publications whether in English Hebrew Yiddish and German books research reports educational and general periodicals synagogue histories conference proceedings bibliographies and encyclopedias on all aspects of Jewish education from pre school through secondary education *Shi'i Islam* Moojan Momen,2015-11-05 From infallible Imams to Ayatollahs in Iran Shi'ism has long been a prominent if misunderstood branch of Islam It regards Ali Muhammad's son in law as the Prophet's legitimate successor But theological differences between the Shi'ah and Sunni Muslims have led to sectarian violence massacres and the desecration of holy sites In this *Beginner's Guide* Dr Moojan Momen offers an accessible and comprehensive overview of Shi'ism tracing the history of the community its leadership and doctrines from its inception to modern times Packed with useful tables family trees and text boxes this engaging and up to date guide is a perfect
