Supervisors: must be certified
before work commences on the
project. If not certified, must have
been in training for 30 days and
have a minimum of 100 hours of
experience in the field.

1999

The degree of the response to treatment by the treatment and control arms should be a measure of the effectiveness of the treatment. And, it is not correct to suggest that the two treatment arms should be compared to each other without taking into account the response to treatment. Such a comparison is not valid because the two treatment arms are not comparable. The response to treatment is a measure of the effectiveness of the treatment and should be taken into account in the analysis of the data.
