

Below is the end, the bearing is an important component of the Kubotan.

Keyring Attachment:

The keyring attachment is important for two reasons. First, it converts this self-defense weapon into a practical keychain allowing you to carry it with you at all times.

Second, it makes the Kubotan look less threatening. Remember, your Kubotan should appear innocuous. This is especially important if your self-defense situation turns into a legal battle.

Innocuous Looking

As I stated earlier, a Kubotan should look harmless to the layperson. The last thing you want to do is bring attention to your weapon, avoid carrying a Kubotan that has spikes, sharp points or any type of design that looks threatening or menacing.

Also, just because a Kubotan doesn't look menacing doesn't guarantee that you won't be stopped by the police. As a matter of fact, the TSA classifies the Kubotan as a "metal and its self-defense item" and prohibits it as a carry-on item. So, remember to check it in when flying.

Avoid carrying a Kubotan that looks dangerous or threatening. Personal Item - yourself/kubotan that looks menacing.

Personal Item - metal and its self-defense.
