Handbook of Strategic Account Management Diana Woodburn, Kevin Wilson, 2014-03-17. A compilation of the established knowledge in strategic account management. While companies and academics expend tremendous effort on mass marketing, they often overlook their immediate customers, which are critical in both senses and hence the importance of strategic account management (SAM). This handbook is a compilation of papers that present researched knowledge of SAM across the academic community, which fills a void in the existing academic literature. Handbook of Strategic Account Management identifies drivers of the SAM approach, key issues, and success factors, operational needs, and areas still awaiting exploration. Each paper includes an overall referenced summary of the tenets of SAM relevant to the area it reports on, and together with the combined list of references, it creates an indispensable resource for academic readers, students, and researchers. Handbook of Strategic Account Management is written by over 40 knowledgeable experts with substantial experience of SAM from teaching, researching, writing, and advising companies on why and how it works, spread widely across Europe and the US. It represents the balanced, researched body of knowledge in SAM and will be an invaluable resource to anyone exploring the approach, whether for a student thesis, for original research, or for answers on how to approach SAM as a company initiative. Today's strategic key and global account management professionals owe thanks to a small community of academic researchers who, over the past three decades, have been pioneers in identifying, cataloguing, and analyzing the selling and business management practices of an emerging profession we now call strategic account management. This Handbook is an important milestone to mark SAM's still-evolving impact on corporate business strategies and its ever-increasing relevance as a proven engine for growth in business-to-business strategic customer relationships. Bernard Quancard, President/CEO of SAMA (US-based Strategic Account Management Association) with over 3,000 members worldwide.
