Grasso V Series

Reciprocating compressors for industrial refrigeration

With the new Grasso V reciprocating compressor series, GEA is heralding the start of a completely new era for the industrial refrigeration market. During the development of the Grasso V series, GEA continually put itself in the position of the end user. Every component was assessed for the most important elements that contribute to a low Total Cost of Ownership like energy, maintenance and reliability with min. downtime. The result is not only the most efficient reciprocating compressor

on the market but also a compressor with electronically controlled service intervals (extended as well as flexible) in order to reduce the Total Cost of Ownership without jeopardizing reliability. This new series will gradually replace the existing series in a swept volume range from 250 up to 1592 m³/h. This moment single stage compressors with swept volumes from 637 up to 1592 m³/h are available. Smaller swept volumes, down to 250 m³/h, as well as compound (two stage) compressors will become available in 2012.
