Great Bear Wild Dispatches From A Northern Rainforest:

Great Bear Wild Professor of Political Science Ian McAllister, 2021-02 The Great Bear Rainforest is the fabled region that stretches up the rugged Pacific coast from the top of Vancouver Island to southern Alaska A longtime resident of the area award winning photographer and conservationist Ian McAllister takes us on a deeply personal journey from the headwaters of the Great Bear Rainforest's unexplored river valleys down to where the ocean meets the rainforest and finally to the hidden depths of the offshore world Along the way we meet the spectacular wildlife that inhabits the Great Bear Rainforest in a not so unusual week McAllister quietly observes twenty seven bears fishing for salmon three of which are the famed pure white grizzlies Kermodes McAllister introduces us to the First Nations people who have lived there for millennia and have become his close friends and allies and to the scientists conducting groundbreaking research and racing against time to protect the rainforest from massive energy projects

In the Valleys of the Noble Beyond John Zada, 2019-07-02 A journalist travels through British Columbia exploring one of the world's most baffling mysteries the existence of the Sasquatch On the central and north coast of British Columbia the Great Bear Rainforest is the largest intact temperate rainforest in the world containing more organic matter than any other terrestrial ecosystem on the planet The area plays host to a wide range of species from thousand year old western cedars to humpback whales to iconic white Spirit bears According to local residents another giant is said to live in these woods For centuries people have reported encounters with the Sasquatch a species of hairy bipedal man apes said to inhabit the deepest recesses of this pristine wilderness Driven by his own childhood obsession with the creatures John Zada decides to seek out the diverse inhabitants of this rugged and far flung coast where nearly everyone has a story to tell from a scientist who dedicated his life to researching the Sasquatch to members of the area's First Nations to a former grizzly bear hunter turned nature tour guide With each tale Zada discovers that his search for the Sasquatch is a quest for something infinitely more complex cutting across questions of human perception scientific inquiry indigenous traditions the environment and the power and desire of the human imagination to believe in or reject something largely unseen Teeming with gorgeous nature writing and a driving narrative that takes us through the forests and into the valleys of a remote and seldom visited region In the Valleys of the Noble Beyond sheds light on what our decades long pursuit of the Sasquatch can tell us about ourselves and invites us to welcome wonder for the unknown back into our lives Praise for In the Valleys of the Noble Beyond Books on supernatural phenomena typically steer one of two courses tabloid gullibility or mean spirited debunkery Zada deftly tightropes between the two In the Valleys of the Noble Beyond is not really about sasquatch It is about how we see what we want to see and don't see what we're not prepared to see A quirky and oddly captivating tale Eric Weiner Washington Post An adventure story in the tradition of Paul Theroux and in parts Jon Krakauer Zada is a latter day Henry David Thoreau or John Muir Searching for an elusive ape Zada has a knack for meeting unforgettable humans Peter Kuitenbrouwer Globe and Mail If people can believe in God why not
