

APA Style Quick Guide (7th Ed.)

Introduction

It is not the intention of this handout to replace the *Publication Manual of the American Psychological Association* (APA, 2020), nor is it to give examples of every possible situation. Rather, this handout is offered as a quick reference for general academic writing use.

What is APA Style?

American Psychological Association (APA) style is one of several styles for academic writing. This guide provides an introduction to formatting rules and examples of common types of citations. The full seventh edition of the *Publication Manual of the American Psychological Association* is available as a print book in the UCW Library.

What to Document?

Be sure to document all the sources you have cited in writing your assignment. You will need to cite sources for:

- Direct quotes
- Paraphrases and summaries of ideas and information
- Information that is not common knowledge or is not available in a standard reference work
- Any other borrowed material that might appear to be your own if there were no citation.
