Minority and Cross-Cultural Aspects of Neuropsychological Assessment F. Richard Ferraro, 2015-07-16 Minority and cross cultural psychology is more relevant now than ever in our diverse world Given the dramatic local and global changes occurring daily with regard to demographics population changes and immigration issues minority and cross cultural psychology is fast becoming a respected and critical area of scientific study Pair that with the fact that people of all cultures and racial groups are living longer and experiencing age related diseases and disorders one can easily see the need for additional work on issues related to neuropsychological assessment This new edition brings to the forefront recent developments by seasoned experts in the field They offer up their newest projects in minority and cross cultural aspects of neuropsychological assessment and are joined by new up and coming professionals across a wide array of disciplines including psychology medicine and neuropsychology Like the first edition this updated collection sheds light on the ever growing need for adequate neuropsychological assessment to a wider subset of individuals crossing many cultural and minority barriers in the process Continuously pushing the boundaries of neuropsychological assessment this collection is essential reading for cognitive and clinical psychologists and neuropsychologists and a model text for advanced courses dealing with minority and cross cultural issues

Great Expectations Loyce Caruthers, Jennifer Friend, 2016-03-01 This book explores meaningful and effective use of student voice in urban school renewal efforts through strategies that include surveys interviews focus groups visual and video projects social media and student participation in governance Chapters provide a definition of student voice context for public schooling in the United States and introduce a framework for including student voice in school renewal processes Examples guide readers to implementation of the framework to include student voices in diverse educational settings Authentic voices of approximately 175 students interviewed by the authors express what it is that they really want from public schools and how pre K 12 educators can provide a structure for ongoing

student participation in governance and the work of the school The existing literature explores student characteristics such as poverty cultural diversity and what the experts believe students need public schools to provide Within the research urban public schools and technical reform are often explored and examined separately from conversations about what students want from schools excluding opportunities for their voices and diverse perspectives to be heard Listening to students describe instances of bullying or teachers low academic expectations provides educators with opportunities to address issues that impede student learning The uniqueness of this framework for including student voice is that it provides multiple opportunities for students in any grade level to tell us what it is they want from public schools and to make meaningful and lasting contributions to school renewal efforts

Handbook of Multicultural Perspectives on Stress and Coping Paul T. P. Wong, Lilian C. J. Wong, 2007-02-15 Has the developing world developed modern concepts of stress Are coping methods the same around the globe Such questions are not simple to answer and until recently few knew to ask them In recent years Western psychologists have recognized that their prevailing views of psychology do not always translate worldwide and that no culture has a monopoly on either stress or coping The Handbook of Multicultural Perspectives on Stress and Coping was created to address this realization This unique volume moves beyond simple comparisons of behaviors in other countries by clarifying critical concepts in stress and coping analyzing and synthesizing vast amounts of global data and identifying constructs and methodologies necessary for meaningful cross cultural research An international multiethnic panel of forty five contributors presents elegant studies of stress survival and resilience as cultures evolve and countries interact including Personal transformation as a coping strategy Psychological skills that enhance intercultural adjustment Individual versus collectivist values in coping Buddhist and Taoist traditions in coping The cumulative effects of historical environmental and political stressors on nations in the Middle East Specific cross cultural perspectives from Latino American families to Canadian aboriginal peoples to minority university students The editors have assembled a vital store of knowledge raising crucial implications for clinicians working with immigrant international populations and evaluating the current state of theory research and assessment The Handbook documents major steps toward scientific advancement and human understanding

Neuropsychology of Asians and Asian-Americans J. Mark Davis, Rik Carl D'Amato, 2013-08-19 Neuropsychology with Asians and Asian Americans Practical and Theoretical Considerations J Mark Davis and Rik Carl D Amato editors The challenge of cultural competence for health providers is more than the recognition of other ethnicities it entails the balancing of group and individual factors to apply relevant information in diagnostic and therapeutic settings Particularly in need of culturally appropriate services are Asians and Asian Americans populations that are diverse growing and underserved by Asian practitioners Neuropsychology with Asians and Asian Americans takes cultural neuroscience to new levels in its variety and usefulness Focusing on the largest groups of Far East and Southeast Asian descent this leading edge reference examines the influence of culture on psychological processes and identifies sociocultural factors as they

influence neurological aspects of client presentation This expert coverage goes beyond well known constructs of collectivism and family orientation toward establishing an evidence base crucial to understanding assessing and treating Asian and Asian American clients including Linguistic factors and language assessment of Asians Society and acculturation in Asian and Asian American communities Mental illness from Asian and Asian American perspectives Understanding cognitive differences across the lifespan comparing Eastern and Western cultures Clinical interviews and qualitative assessment with Asian clients Neuropsychological test selection with Asian clients Unique in its scope and detail Neuropsychology with Asians and Asian Americans is a necessary resource for neuropsychologists and rehabilitation specialists as well as social workers and clinical counseling and school psychologists *Psychosocial Aspects of the Asian-American Experience* Namkee G Choi, 2021-02-25 Discover intervention strategies for issues affecting Asian Americans This important book examines the childhood adolescence young adulthood and aging stages of Asian Americans to help researchers and practitioners offer better services to this ethnic group Psychosocial Aspects of the Asian American Experience will help you understand the ethnic and cultural diversity within the Asian American population and offers both quantitative and qualitative research that may impact social policies and social services for Asian Americans Representing Chinese Japanese Filipinos Koreans Asian Indians Vietnamese Hmong Cambodians and native born Hawaiians this helpful book covers a wide span of individual ethnic identities in order to represent the scope of the Asian American subculture The topics and problems examined in Psychosocial Aspects of the Asian American Experience include ethnic identity acculturation and cultural orientation psychological adjustment of adoptees attitudes and behavior of adolescents regarding academic achievement social network composition depression and other mental health problems dating violence and domestic abuse substance abuse aging In addition to analyzing these problems this book also presents culturally competent intervention strategies to assist human services practitioners in offering their clients relevant services that are appropriate for their ethnic backgrounds beliefs and experiences This book is also a valuable resource for researchers policymakers and graduate students and faculty members in the areas of social work sociology psychology and ethnic studies
