Union Catalog of the Graduate Theological Union Graduate Theological Union. Library, 1972 *Library of Congress Catalog* Library of Congress, 1960 A cumulative list of works represented by Library of Congress printed cards **The Construction of Tragedy** Mary Anneeta Mann, 2004 A beacon for the 21st century is an understanding of the Science of Being Altogether as practiced by the great tragic dramatists An integral part of the art form of tragedy is deemed to be the dramatists adherence to the philosophy of the Science of Being Altogether where the artist becomes intuitive scientist in creating a microcosm of the universe itself Six plays Antigone Hamlet King Lear Murder in the Cathedral A Man for All Seasons The Condemned of Altona are analyzed in similar format in HUBRIS The Construction of Tragedy Societies and forms of government may vary but humanity itself does not change significantly Antigone Hamlet and Albany in King Lear are deeply aware of mortals cosmic connection and the responsibilities resultant from it Hubris in human activity such as domination exemplified by Creon in Antigone and martyrdom extolled by More in A Man for All Seasons and Thomas in Murder in the Cathedral can be understood to be scientifically untenable and destined to be chastened or broken by the universal life force The Condemned of Altona addresses the 20th century disconnect of human morality from cosmic harmony At the end of each play s analysis a section is devoted to its contemporary relevance Contemporary issues as fear of dialogue domination martyrdom religious fervor and ideological hatred and the slide into hopelessness all fit into patterns of human behavior that are explored in tragedy *The Publishers Weekly*, 1876 **The Specter of the Absurd** Donald A. Crosby, 2016-03-22 This book is our century s most comprehensive and wise treatment of nihilism in all of its guises comparing favorably with Rosen Cavell and indeed with Spengler Crosby argues that our culture is genuinely haunted by

nihilism expressing itself in the fideism of fundamentalism as well as in the debilitating alienation from all orientation This results from a one sided development of Western culture Unlike most writers on this topic Crosby acknowledges many sources colluding to frame the culture of nihilism including the death of God the objectification of nature the meaninglessness of suffering in a mechanical universe the ephemerality of time in a world where value does not accumulate the arbitrariness of historicized reason the reduction of value to will and the alienation of the Cartesian ego These sources are reviewed in the first two parts of the book with the result that the phenomenon of nihilism becomes understandable In its third and fourth parts Crosby provides a critical analysis of the religious and philosophical forces leading to nihilism by discussing authors from the early modern period through Dostoyevsky Sartre Russell and Derrida He shows that these forces are skewed and impoverished and should not be allowed to determine our situation The comprehensive attention to detail and the multi perspectival interpretation demonstrates as well as asserts the richness of the culture that puts nihilism in its place Part Five finally rephrases the criticism of the sources of nihilism in positive ways Part Four in particular is a tour de force of philosophical argument Its richness of nuance plurality of views examined and adroitness of critical interpretation provide cumulatively a powerful non nihilistic reading of the philosophic tradition The force of the argument derives from its comprehensive cumulative character Crosby distinguishes and relates five areas of nihilism political moral epistemological cosmic and existential Throughout the book he illustrates and examines these as they are expressed in literature and art in daily life and practical affairs and in philosophy The book is richly erudite in its marshalling of consciousness from so many domains

Classical Horizons George E. McCarthy, 2012-02-01 2003 CHOICE Outstanding Academic Title This work relocates the origins of nineteenth century social theory in classical Greece and focuses on three figures Karl Marx Max Weber and mile Durkheim all of whom wrote dissertations on the culture and structure of ancient society Greek philosophy art and politics inspired their ideas stirred their imaginations and defined their intellectual horizons McCarthy rediscovers the forgotten dreams and classical horizons of these European social theorists and uncovers the close connections between sociology and philosophy offering new insights into the methods theories and approaches of modern social science The

Junior College Library Collection , 1970 **Engineering and the Liberal Arts** Samuel C. Florman, 2024-09-04 From the author who inspired inaugural poet Richard Blanco Engineering and the Liberal Arts remains a fresh and provocative book using the familiar world of technology to guide a new generation of engineers through the stimulating world of the liberal arts Beginning with a penetrating and enlightening discussion of how exposure to the arts can enrich and reward nearly every aspect of an engineer s life Samuel Florman himself a decorated engineer with over fifty years experience in the field boldly explores the natural relationship between liberal arts and technology Sweeping away traditional barriers separating the two fields Florman establishes a rich and vital communication of ideas between scientist and artist By linking the history of technology to world history the truth of science to philosophy utility of form to painting and sculpture and the world of

view of the engineer to literature Florman builds a series of bridges connecting science to art A complete survey of the arts in and of itself this impressive volume constitutes an introduction to the infinite variety of pleasures afforded through study of the liberal arts paving the way to a richer fuller life for the engineer
