Cherian, 2023-02-23 Democracy in the world is backsliding in many countries around the globe at the present time due to various reasons Different nations may have their own particular reasons such as socioeconomic inequality poverty failure of checks and balances that may result in an abrupt military coup d'etat to change from democracy to tyranny In nations where democracy failed there were no tanks on the street Constitution of the land remained but elected leaders became autocrats maintaining a veneer of democracy America being a nation with nearly 80 percent of Christians has been the strongest democracy in the world who championed it as the model for the rest of the world However democracy in America appears to be in peril because of political bickering partisan gridlock and promulgation of falsities misinformation and faux faith by one political party By introducing the foundational principles of democracy from the philosophical arguments of Socrates Plato and Aristotle the author shows how and why the cornerstone of democracy in America shows signs of crumbling The book vividly explains Politics without God will shatter the foundation of democracy Present political system rejects the checks and balances laid by the founding fathers The right wing has cultivated a spirit of untruth that spreads like a wildfire Rejecting truth by political parties and leadership is a sign of strong delusion There is a clear moral bankruptcy in the present political sphere of our nation The brightness of democracy in America which Tocqueville praised has been tarnished Hypocritical and dishonest leaders should not reign lest the people be ensnared American politicians must register their solemn oath in heaven to act in truth No nation can be established in one day but can shatter in one day by a despot America must realign with God to lead the nation in truth justice and freedom for all Democracy turns to tyranny when a moral man becomes

amoral With biblical prophecies and instructions the author shows that America faces a real threat to its democracy unless it resists tyrants with all their mind soul and strength which is obedience to God who can anchor the nation on its solid foundation set by the Founding Fathers Every citizen political and judicial leaders of the nation are the cupbearers and the watchmen of the nation     The Employer ,1921     **Decision Advantage** Jennifer E. Rossiter,2010 This book is about not just the effects but the making of U S foreign policy It shows how advocates of basing U S relations on progress toward democracy struggle in Washington with advocates of support for repressive regimes in return for economic benefits such trade investment and mineral resources and military benefits such as access to their territory for U S armed and covert forces By arguing that the outcome of this struggle is determined by the average citizen s position the book makes readers participants rather than observers By arguing that a cultural pump constantly promotes a vision of American domination as a positive force in the world it encourages readers to analyze the day to day effect of this vision on their own perceptions Intended for a general audience the book features enough inside tales and colorful characters to intrigue the casual reader but also provides the clear themes and historical context needed for a high school or college text on U S policy after World War II toward the colonized and then post colonial countries     **The Debatabase Book** International Debate Education Association,2004 An invaluable resource for debaters The Debatabase Book provides background arguments and resources on more than 125 debate topics in areas as diverse as business science and technology environment politics religion culture and education All topics have been updated and 15 new topics added for the revised edition Each entry presents an introduction placing the topic in context arguments pro and con sample motions and Web links and print resources for further research Organized in a handy A Z format the book also includes a topical index for easy searching BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     **The Department of State Bulletin** ,1985     Bulletin of the Atomic Scientists ,1995-03 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
