R. Grafius, 2018-03-20 The tale of the zeal of Phineas expressed when he killed an Israelite man and a Midianite woman having sex and thus stopped a plague of consorting with idolatrous neighbors in the Israelite camp Numbers 25 has long attracted both interest and revulsion Scholars have sought to defend the account to explain it as pious fiction or to protest its horrific violence Brandon R Grafius seeks to understand how the tale expresses the latent anxieties of the Israelite society that produced it combining the insights of historical criticism with those of contemporary horror and monster theory Grafius compares Israelite anxieties concerning ethnic boundaries and community organization with similar anxieties apparent in horror films of the 1980s then finds confirmation for his method in the responses of Roman period readers who reacted to the tale of Phineas as a tale of horror The combination of methods allows Grafius to illumine the concern of an ancient priestly class to control unsettled and unsettling community boundaries and to raise questions of implications for our own time

**American Book Publishing Record**, 2003 **Reading the Bible with Horror** Brandon R. Grafius, 2019-10-25 In Reading the Bible with Horror Brandon R Grafius takes the reader on a whirlwind tour through the dark corners of the Hebrew Bible Along the way he stops to place the monstrous Leviathan in conversation with contemporary monster theory uses Derrida to help explore the ghosts that haunt the biblical landscape and reads the House of David as a haunted house

Conversations arise between unexpected sources such as the Pentateuch legal texts dealing with female sexuality and Carrie Throughout the book Grafius asks how the Hebrew Bible can be both sacred text and tome of fright and he explores the numerous ways in which the worlds of religion and horror share uncomfortable spaces **IBSS: Sociology: 2005 Vol. 55** British Library of Political and Economic Science Staff,Compiled by the British Library of Political and Economic Science,2006-11-03 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included international Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French
