Jump Aboard Paul A. Davies, 2008 *Running the Race* Brian Steel Wills, 2022-09-27 From Moses and Michelangelo to Andrew Jackson and Thomas Jefferson Wills provides a compelling treatment of Heston's long and successful career Gary W Gallagher author of *The Confederate War* Brian Steel Wills captures for the first time a comprehensive view of Charlton Heston's climb to fame his search for the perfect performance and the meaningful roles he played in support of the causes he embraced in *Running the Race* The Public Face of Charlton Heston The actor was born and raised in the Michigan woodlands and suburbs of Chicago where he found his love of acting in the books he read and the movies he saw After the Second World War interrupted his journey when he served his country the lights of New York City and Broadway beckoned Live television offered an important platform but Hollywood and feature films were his destiny His roles were as varied as they were powerful and included stints as Moses Ben Hur El Cid Michelangelo Mike Vargas and Charles Chinese Gordon under legendary directors like Cecil B DeMille William Wyler Franklin Schaffner and Orson Welles He shifted to science fiction in *Planet of the Apes* and *Soylent Green* a wide range of action and disaster films and more nuanced roles such as Will Penny Over his decades of performance Heston defined and redefined his public face in a constant quest for an audience for his work He undertook wide ranging public service roles for the government the arts and other causes In *Running the Race* award winning historian Brian Steel Wills digs deep to paint a rich portrait of Heston's extraordinary life a mix of complications and complexities that touched film television theater politics and society *Jump Aboard, Level 1* P. Law in the Liberal Arts Austin Sarat, 2018-08-06 Should law be left to the lawyers Is legal education properly understood as technical education Law in the Liberal Arts answers no and suggests that our society is not well served by the current professionalization of legal knowledge An ideal approach to legal education in Austin Sarat's view would open up law and legal knowledge by making them the proper objects of inquiry in the liberal arts Legal education in the United States is generally located in law schools dedicated to professional training Sarat believes that this situation impoverishes our ability to see the complex relations of law culture and society in all their variety and to connect theorizing about law with its application in the humanities and social sciences The contributors to this book aim to assess the place of legal scholarship in the liberal arts by asking whether and how legal research and pedagogy are different in liberal arts settings than they are in law schools **The Magic Tanach and Other Short Plays** Behrman House, Gabrielle Suzanne Kaplan, 2005-06 Plays for all school ages in each of four subject areas Holiday plays the Wisdom of stories Exploring sacred texts and Our Jewish values
