**Chiasmatic Chorology** John W. M. Krummel, 2015-09-01 Nishida Kitaro 1870-1945 is considered Japan's first and greatest modern philosopher. As founder of the Kyoto School, he began a rigorous philosophical engagement and dialogue with Western philosophical traditions, especially the work of G.W.F. Hegel. John W. M. Krummel explores the Buddhist roots of Nishida's thought and places him in connection with Hegel and other philosophers of the Continental tradition. Krummel develops notions of self-awareness, will, being, place, the environment, religion, and politics in Nishida's thought and shows how his ethics of humility may best serve us in our complex world. The View from Within Jonathan Shear, Francisco J.

Varela, 1999 Investigating the brain from the outside using brain scanning technology such as PET and fMRI brings great precision to results. However, examining the view from within the brain isn't so easy. This book presents results of investigations that examine the conscious mind from the inside. *A Mind Of One's Own* Louise Antony, Charlotte

Witt, 2018-03-08 With philosophy so steeped in patriarchal tradition, how is it possible for feminists to work within it? In this volume, 13 feminist theorists discuss whether traditional ideals of objectivity and rationality should be given a place within the committed feminist view of philosophy and the world. *Collected papers on the psychology of phantasy* Constance Ellen

Long, 1921 Lectures on the Philosophy of Mathematics Friedrich Waismann, 2022-11-07 **Appearance and Sense**

Gustav Shpet, 2012-12-06 Despite or perhaps better by virtue of its very brevity, *Appearance and Sense* is a difficult text to read and understand, particularly if we make the attempt independently of Husserl's *Ideas I*. This is certainly at least in part owing to the intent behind Shpet's work. On the one hand, it strives to present Husserl's latest views to a Russian philosophical audience not yet conversant with and in all likelihood not even aware of his transcendental idealist turn. With this aim, any reading would perforce be exacting. Yet on the other hand, Shpet has made scant concession to his public. Indeed, his text is even more compressed, especially in the crucial areas dealing with the sense-bestowing feature of consciousness than Husserl's own. For all that, Shpet has not bequeathed to us simply an abbreviated paraphrase nor a selective

commentary on Ideas I although at many points it is just that Rather the text on the whole is a critical engagement with Husserl's thought where Shpet among other things reformulates or at least presents Husserl's phenomenology from the perspective of hoping to illuminate a traditional philosophical problem in a radical manner Since Husserl's text was published only in 1913 and Shpet's appeared sometime during 1914 the latter must have been conceived thought through and written in remarkable haste Indeed Shpet had already finished a first draft and was busy with a revision of it by the end of 1913

*Deceiving the Elect - Quickening Dreams* Douglas Christian Larsen, 2011-03-01 A quiet book about how an intensely deceptive movement can begin with its almost innocent origins buried deeply in the hopes and fears of good people *Quickening Dreams* is the first book in the *Deceiving the Elect* series introducing us to a cast of quirky lovable characters both good and bad This book speaks to that growing feeling of uncertainty deep in your heart where you are beginning to question the reality of this world and the religion your parents taught you In distant echoes you are beginning to hear the still small voice and perhaps you are one of the very few that is having odd dreams dreams that seem to waken you and bring you to life

**The Teleology of Action in Plato's Republic** Andrew Payne, 2017-10-06 In many discussions of ancient philosophy teleology is acknowledged as an important theme How do we act for a particular end or purpose One common answer describes humans as acting with the intention of achieving a goal A person selects particular actions with the thought that these actions will lead to that goal Andrew Payne accepts that this is one good answer to our question but proposes that it is not the only one In Plato's *Republic* Socrates appeals to a different understanding of how humans act for the sake of ends as they live together in political communities and pursue knowledge As they carry out activities that are necessary for human flourishing their actions can produce unintended results that signal the full completion of human capacities For example performing the actions of a just individual can help promote the establishment of a just society as an unintended result Such unintended results qualify as ends or purposes of human action This volume fully explores this functional teleology of action in Plato's *Republic*
