elite and popular Zalman shows how the American encounter with Surrealism was shaped by Alfred Barr William Rubin and Rosalind Krauss as these influential curators mobilized Surrealism to compose to concretize or to unseat narratives of modern art in the 1930s 1960s and 1980s alongside Surrealism s intersection with advertising Magic Realism Pop and the rise of contemporary photography As a popular avant garde Surrealism openly resisted art historical classification forcing the supposedly distinct spheres of modernism and mass culture into conversation and challenging theories of modern art in which it did not fit in large part because of its continued relevance to contemporary American culture

Landscapes of Holocaust Postmemory Brett Ashley Kaplan, 2011-01-13 How do the spaces of the past stay with us
 through representations whether literary or photographic How has the Holocaust registered in our increasingly globally
 connected consciousness What does it mean that this European event is often used as an interpretive or representational
 touchstone for genocides and traumas globally In this interdisciplinary study Kaplan asks and attempts to answer these
 questions by looking at historically and geographically diverse spaces photographs and texts concerned with the physical and
 or mental landscape of the Holocaust and its transformations from the postwar period to the early twenty first century
 Examining the intersections of landscape postmemory and trauma Kaplan s text offers a significant contribution to our
 understanding of the spatial visual and literary reach of the Holocaust Prague, Capital of the Twentieth Century Derek

Sayer, 2021-11-09 The story of modernity told through a cultural history of twentieth century Prague Setting out to recover the roots of modernity in the boulevards interiors and arcades of the city of light Walter Benjamin dubbed Paris the capital of the nineteenth century In this eagerly anticipated sequel to his acclaimed *Walter Benjamin: A Czech History* Derek Sayer argues that Prague could well be seen as the capital of the much darker twentieth century Ranging across twentieth century Prague's astonishingly vibrant and always surprising human landscape this richly illustrated cultural history describes how the city has experienced and suffered more ways of being modern than perhaps any other metropolis Located at the crossroads of struggles between democratic communist and fascist visions of the modern world twentieth century Prague witnessed revolutions and invasions national liberation and ethnic cleansing the Holocaust show trials and snuffed out dreams of socialism with a human face Yet between the wars when Prague was the capital of Europe's most easterly parliamentary democracy it was also a hotbed of artistic and architectural modernism and a center of surrealism second only to Paris Focusing on these years Sayer explores Prague's spectacular modern buildings monuments paintings books films operas exhibitions and much more A place where the utopian fantasies of the century repeatedly unraveled Prague was tailor made for surrealist Andr Breton's black humor and Sayer discusses the way the city produced unrivaled connoisseurs of grim comedy from Franz Kafka and Jaroslav Hasek to Milan Kundera and Vclav Havel A masterful and unforgettable account of a city where an idling flaneur could just as easily be a secret policeman this book vividly shows why Prague can teach us so much about the twentieth century and what made us who we are
