**STEM Education by Design** Brent Davis, Krista Francis, Sharon Friesen, 2019-04-29 An accessible text that assumes no prior knowledge this book is grounded in the realization that STEM and STEM Education have not yet evolved into fully coherent fields of study and fills this gap by offering an original model and strategy for developing coherences in a way that both

honors the integrity of each of STEM's constituent disciplines and explores the ways they can amplify one another when used together to address complex contemporary issues. This book demonstrates how STEM can and should be understood as more than a collection of disciplines; it is a transdisciplinary possibility-rich domain that is much more than the sum of its parts. Building on the actual work of scientists, engineers, and other professionals, the authors disrupt preconceptions about STEM domains and provide the tools and evidence-based approaches to create new possibilities for all learners. Covering historical influences, theoretical frameworks, and current debates and challenges, this book positions teachers and students as agents of change. Each chapter features:

- In Brief openers to introduce the topic.
- Opening Anecdotes to reflect the chapter's key themes.
- Sidebars to put core principles in context.
- Consolidating Key Points activities to summarize and highlight important details.
- Challenges to build upon and extend topics explored in the chapter from different angles.

The Boy Crisis Warren Farrell, John Gray, 2018-03-13

What is the boy crisis? It's a crisis of education. Worldwide, boys are 50 percent less likely than girls to meet basic proficiency in reading, math, and science. It's a crisis of mental health. ADHD is on the rise. And as boys become young men, their suicide rates go from equal to girls to six times that of young women. It's a crisis of fathering. Boys are growing up with less involved fathers and are more likely to drop out of school, drink, do drugs, become delinquent, and end up in prison. It's a crisis of purpose. Boys' old sense of purpose—being a warrior, a leader, or a sole breadwinner—are fading. Many bright boys are experiencing a purpose void, feeling alienated, withdrawn, and addicted to immediate gratification. So, what is The Boy Crisis? A comprehensive blueprint for what parents, teachers, and policymakers can do to help our sons become happier, healthier men and fathers and leaders worthy of our respect.
