## **Junkers Ju 88 Vol II:**

Junkers Ju 88 Marek Murawki, Rys Murawki, Marek Rys, 2015-02-19      Ju 88 Aces of World War 2 Robert Forsyth, 2019-01-24 Initially designed as a fast medium bomber the Junkers Ju 88 was also used as a Zerstörer heavy fighter by the Luftwaffe. It saw its combat debut over Poland in 1939 and heavy fighter variants saw action on every front up to VE Day. The ultimate Ju 88 fighter variant was the G model of 1944 which boasted a FuG 220 or 227 radar, an astounding array of cannon and machine gun armament and advanced Junkers Jumo or BMW engines. A dedicated nightfighter, the first Ju 88G 1s entered service with the Nachtjagd in the summer of 1944, replacing Ju 88C Rs as well as some Bf 110Gs. Despite suffering heavy losses in the final months of the war, Ju 88Gs also inflicted serious casualties on Bomber Command throughout the war. From patrolling over the Bay of Biscay to the Arctic circle opposing Allied convoys and most successfully as radar equipped nightfighters engaging RAF heavy bombers during defence of the Reich, operations from late 1941, this is the story of the Ju 88 aces who menaced Allied aircraft and shipping throughout World War 2.

**Junkers Ju 88 Kampfgeschwader on the Russian Front** John Weal, 2012-10-20 Written and illustrated by Luftwaffe expert John Weal, this book completes Osprey's trilogy on one of the most important German aircraft of World War II. The Ju 88 Wunderbomber was the main punch of the Luftwaffe's bomber arm during the initial invasion of the Soviet Union and went on to provide critical ground support to the advancing Wehrmacht. This book tells the complete story of the Ju 88's activities on the Eastern Front, including their participation in the campaign against the Arctic convoys and the several variants employed. Written and illustrated by renowned Luftwaffe expert John Weal, this book completes Osprey's trilogy on one of the most important German aircraft of World War II.

**A History of the Mediterranean Air War, 1940-1945. Volume 2** Christopher Shores, Giovanni Massimello, Russell Guest, Frank Olynyk, Winfried Bock, 2014-07-19 This second volume in the seminal series on aerial combat pilots and tactics in Libya and Egypt in the middle of World War II. In volume two of this series, historian Christopher Shores begins by exploring the 8th Army's movements after Operation Crusader when they were forced back to the Gazala area in northeastern Libya, as well as their defeat in June 1942, the loss of Tobruk, and the efforts of Allied air forces to protect their retreating troops. Shores continues with the heavy fighting that followed in the El Alamein region. This features the Western Desert Air Force and the arrival of the first Spitfires. The buildup of both army and air forces and the addition of new commanders on the ground aided the defeat of Rommel's Deutsche Afrika Korps at Alam el Halfa, after which came the Second Battle of El Alamein. With the arrival of the United States Army Air Force, the Allied air forces gained dominance over the Axis. Shores recounts the lengthy pursuit of the Italo-German forces right across Libya, including the capture of Tripoli and the breakthrough into Southern Tunisia. This allowed a linkup with other Allied forces in Tunisia, whose story appears in Volume 3. Included with the action are stories of some of the great fighter aces of the Desert campaign, such as Jochen Marseille and Otto Schulz of the Luftwaffe, Franco Bordini Bisleri of the Regia Aeronautica, and Neville Duke, Billy Drake, and

Eddie Edwards of the Commonwealth air forces Finally Shores touches on the Allied and Axis night bombing offensives and the activities of the squadrons cooperating with the naval forces in the Mediterranean In Passage Perilous Vincent P.
