Coleman, 2021-08-11 Original Sin in the 21st Century begins with a cold hard fact Christians we have a problem No one is listening to us when we talk about original sin That will change as you follow an exploration of original sin as an enduring truth about human nature This book is not another exposition of either the history or the doctrine of original sin Rather it opens up new avenues of consideration such as original goodness as a counterweight to original sin a contemporary interpretation of the Adam Eve narrative the new relevancy of Reinhold Niebuhr's recognition that we are not as good as our ideals and a soul searching inquiry into whether original sin is too dark or perhaps not dark enough The twenty first century is far more than a backdrop This book invites us to rethink what sin looks like when the world warms when AI is created in our own image and when sin thrives on indifference and willful ignorance The author will quickly convince you this century is both an opportunity and an imperative to rethink original sin for what lies ahead The Oxford Handbook of Parenting and Moral Development Deborah Laible, Gustavo Carlo, Laura M. Justice as a Virtue Porter, 2016 Aquinas says Jean Porter gets justice right In this book she shows that Aquinas offers us a cogent and illuminating account of justice as a personal virtue rather than a virtue of social institutions For Aquinas justice is more about interpersonal morality than civic or social obligations and Porter masterfully draws out the contemporary significance of Aquinas's perspective back of book

*Mentoring Lawyers* James H. Fierberg, 2019-09-30 If you are a skilled legal professional you know incivility within the profession has reached epidemic proportions James H Fierberg spent almost forty years practicing law at the highest levels and he suggests the profession can solve the problem by paying attention to something it has mostly ignored mentoring lawyers In fact he argues that mentoring programs can help to elevate save the profession and also remove some of the world's rampant toxicity He answers questions such as How can firms urge an early and comprehensive mindful moral inventory of new attorneys What can firms do to help lawyers cultivate positive interpersonal skills and progress in the legal profession What can senior lawyers do to nurture a legacy for themselves their firms and their brands Mindful mentors must not only commit to teaching mentees they must encourage them to come to terms with exactly who they are how they got to this point and how they will establish themselves in the community of law moving forward

**Ethical Sense and Literary Significance** Donald R. Wehrs, 2023-07-31 This study blends together ethical philosophy neurocognitive evolutionary studies and literary theory to explore how imaginative discourse addresses a distinctively human deep sociality and by doing so helps shape cultural and literary history Deep sociality arising from an improbable evolutionary history both entwines and leaves non reconciled what is felt to be significant for us and what ethical sense seems to call us to acknowledge as significant independent of ourselves

Ethical Sense and Literary Significance connects literary and cultural history without reducing the literary to a mere expression of something else. It argues that affective differences between non egocentric and egocentric registers of significance are integral to the bioculturally evolved deep sociality that verbal art addresses often in unsettling and socially critical ways. Much imaginative discourse in early societies as well as recent ones brings ethical sense and literary significance together in ways that reveal their intricate but non harmonized internal entwinement. Drawing on contemporary scholarship in the humanities and sciences, Donald R. Wehrs explores the implications of interdisciplinary approaches to topics central to a wide range of fields beyond literary studies including neuroscience, anthropology, phenomenological philosophy, comparative history, and social psychology.

**Bronislaw Malinowski's Concept of Law** Mateusz Stępień, 2016-09-26. This book discusses the legal thought of Bronislaw Malinowski (1884-1942), undoubtedly one of the titans of social sciences who greatly influenced not only the shape of modern cultural anthropology but also the social sciences as a whole. This is the first comprehensive work to focus on his legal conceptions while much has been written about his views on language, magic, religion, and culture; his views on law have not been fairly reconstructed or recapitulated. A glance at the existing literature illustrates how little has been written about Malinowski's understanding of law, especially in the legal sciences. This becomes even more evident given the fact that Malinowski devoted much of his scholarly work to studying law, especially in the last period of his life during which he conducted broad research on law and primitive jurisprudence. The main aim of this book is to address this gap and to present in detail Malinowski's thoughts on law. The book is divided into two parts. Part I focuses largely on the impact that works of two distinguished professors from his alma mater, L. Dargun and S. Estreicher, had on Malinowski's legal thoughts, while Part II reconstructs Malinowski's inclusive, broad, and multidimensional understanding of law and provides new readings of his legal conceptions, mainly from the perspective of reciprocity. The book offers a fresh look at his views on law, paving the way for further studies on legal issues inspired by his methodological and theoretical achievements. Malinowski's understanding of law provides a wealth of fodder from which to formulate interesting research questions and a solid foundation for developing theories that more accurately describe and explain how law functions based on new findings in the social and natural sciences.

*The Domesticated Brain* Bruce Hood, 2014-05-01. What makes us social animals? Why do we behave the way we do? How does the brain influence our behaviour? The brain may have initially evolved to cope with a threatening world of beasts, limited food, and adverse weather, but we now use it to navigate an equally unpredictable social landscape. In *The Domesticated Brain*, renowned psychologist Bruce Hood explores the relationship between the brain and social behaviour, looking for clues as to origins and operations of the mechanisms that keep us bound together. How do our brains enable us to live together, to raise children, and to learn and pass on information and culture? Combining social psychology with neuroscience, Hood provides an essential introduction to the hidden operations of the brain and explores what makes us who we are.

Naturalism, Human Flourishing, and Asian Philosophy Bongrae

Seok,2019-09-17 *Naturalism Human Flourishing and Asian Philosophy* Owen Flanagan and Beyond is an edited volume of philosophical essays focusing on Owen Flanagan's naturalized comparative philosophy and moral psychology of human flourishing. Flanagan is a philosopher well known for his naturalized approach to philosophical issues such as meaning, physicalism, causation, and consciousness in the analytic school of Western philosophy. Recently he develops his philosophical interest in Asian philosophy and discusses diverse philosophical issues of human flourishing, Buddhism, and Confucianism from comparative viewpoints. The current volume discusses his philosophy of human flourishing and his naturalized approaches to Buddhism and Confucianism. The volume consists of five sections with eleven chapters written by leading experts in the fields of philosophy, religion, and psychology. The first section is an introduction to Flanagan's philosophy. The introductory chapter provides a general overview of Flanagan's philosophy, i.e., his philosophy of naturalization, comparative approach to human flourishing, and detailed summaries of the following chapters. In the second section, the three chapters discuss Flanagan's naturalized eudaimonics of human flourishing. The third section discusses Flanagan's naturalized Buddhism. The fourth section analyzes Flanagan's interpretation of Confucian philosophy, specifically Mencius's moral sprouts from the viewpoint of moral modularity and human flourishing. The fifth section is Flanagan's responses to the comments and criticisms developed in this volume.

The Reducetarian Solution Brian Kateman,2017-04-18 Brian Kateman coined the term Reducetarian, a person who is deliberately reducing his or her consumption of meat, and a global movement was born. In this book, Kateman, the founder of the Reducetarian Foundation, presents more than 70 original essays from influential thinkers on how the simple act of cutting 10% or more of the meat from one's diet can transform the life of the reader, animals, and the planet. This book features contributions from such luminaries as Seth Godin, Joel Fuhrman, Victoria Moran, Jeffrey Sachs, Bill McKibben, Naomi Oreskes, Peter Singer, and others. With over 40 vegan, vegetarian, and less meat recipes from bestselling cookbook author Pat Crocker, as well as tons of practical tips for reducing the meat in your diet (for example, skip eating meat with dinner if you ate it with lunch; replace your favorite egg omelet with a tofu scramble; choose a veggie burrito instead of a beef burrito; declare a meatless day of the week), *The Reducetarian Solution* is a life not to mention planet-saving book.

*The Great Shift: Psycho-spiritual Manual for Survival and Transformation in the Trump Era* Melinda Contreras-Byrd,2018-10-19 This book is a US-based prophetic-themed race and culture-focused work which will serve to foster discussion on several important topics for Christians seeking to live out their faith in this present socio-political era. The foundational belief underlying this book is that we are living in an era of unique possibilities for the church to begin to make second-order changes in our views of Christianity, the church, universal, and the real-life applications of theological concepts of evil and spiritual warfare as they apply to the struggles of this time in history. For Black people in the United States, racism has long been the elephant in the room during most Black-White interactions on any level. Growing expressions of racism have now forced the elephant not only to the forefront of White discourse but the elephant now sits comfortably at the altar railing of

both Black and White church sanctuaries This book argues that we are at a critical time for action and gives suggestions for what at least some of those educational theological and psychological actions could be Handbook of Moral and Character Education Larry Nucci,Tobias Krettenauer,Winston C.
