Justice Welfare State Daniel Engster:

Justice, Care, and the Welfare State Daniel Engster, 2015 *Justice Care and the Welfare State* explores contemporary welfare state reform from a moral and philosophical perspective. It offers detailed arguments about the nature of justice in the areas of family policy, education, health care, old age pensions, and long term care, disability and employment, and poverty support. Challenging the ideal nature of much contemporary political philosophy, Engster applies political philosophy to public policy issues in order to generate concrete policy recommendations for better supporting social justice.

Justice, Care, and the Welfare State Daniel Engster, 2015-10-01 Western welfare states are in a period of significant transition. Changes in the nature of work and the family, the growing elderly population, and other developments over the past fifty years have rendered existing welfare policies largely out of step with economic and social conditions. While welfare state reform clearly raises important questions about justice and social policy, political philosophers have been slow to address it. *Justice Care and the Welfare State* takes up the important task of developing a theory of justice to guide contemporary welfare state reform. Applying normative political philosophy to public policy issues, it addresses questions such as: What role, if any, should states play in supporting families? Should the state support national health care, and if so, why, and in what form? What does society owe to the elderly? What role should welfare states play in supporting disabled people? What obligations does the state have toward the poor? As distinct from many works of political philosophy, *Justice Care and the Welfare State* draws on empirical data about the populations and circumstances of existing Western societies and offers concrete policy advice for reforming welfare policies. Noting that many of the challenges confronting people in post industrial societies involve issues of care, Engster draws on a public ethics of care to develop his theory of welfare state justice, outlining specific policy proposals in the areas of the family, education, health care, old age pensions, and long term care, disability and poverty, and unemployment. The book offers important insights into how Western welfare states can be reformed in light of recent economic and social changes in order better to promote justice. It should be of interest to political philosophers, welfare state scholars, public policy analysts, and others interested in thinking about contemporary policy reform and justice.

Justice, Care, and Value Thomas Randall, 2023-07-21 In *Justice Care and Value*, Thomas Randall argues for the radical potential of care ethics as a distinct and preferable theory of distributive justice. Advancing the feminist literature, this book defends a vision of society that can best enable caring relations to flourish. Specifically, Randall proposes a values driven theory of care ethics that derives normative criteria for evaluating the moral worth of caring relations and their surrounding institutions via a classification of the values of care. They argue that such a theory gives us unique and meaningful solutions to contemporary questions of distributive justice across personal, political, global, and intergenerational domains. In doing so, the book makes significant strides to engage care ethics with the broader moral and political philosophy literature. Topical and interdisciplinary, Randall demonstrates that care ethics has the conceptual resources to ground distributive theories of

socialism territorial and natural resource rights obligations to future generations and historic redress The book will be of great interest to academics researchers and students of feminist philosophy but also of liberalism political economy and theories of global and intergenerational justice Human Dependency and Christian Ethics Sandra

Sullivan-Dunbar,2017-10-05 Dependency is a central aspect of human existence as are dependent care relations relations between caregivers and young children persons with disabilities or frail elderly persons In this book Sandra Sullivan Dunbar argues that many prominent interpretations of Christian love either obscure dependency and care or fail to adequately address injustice in the global social organization of care Sullivan Dunbar engages a wide ranging interdisciplinary conversation between Christian ethics and economics political theory and care scholarship drawing on the rich body of recent feminist work reintegrating dependency and care into the economic political and moral spheres She identifies essential elements of a Christian ethic of love and justice for dependent care relations in a globalized care economy She also suggests resources for such an ethic ranging from Catholic social thought feminist political ethics of care disability and vulnerability studies and Christian theological accounts of the divine human relation **The Bloomsbury Handbook of**

Earned Citizenship Michael J. Sullivan, 2019-03-18. The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today. The majority of unauthorized immigrants in the U.S. have been here for more than five years and are settling into American communities, working, forming families, and serving in the military, even though they may be detained and deported if they are discovered. An open question remains as to what to do about unauthorized immigrants who are already living in the United States. On one hand, it is important that the government sends a message that future violations of immigration law will not be tolerated. On the other, sits a deeper ethical dilemma that is the focus of this book: what do the state and citizens owe to unauthorized immigrants who have served their adopted country? *Earned Citizenship* argues that long-term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities. Their service would act as restitution for immigration law violations. Military service in particular would merit naturalization in countries with a strong citizen-soldier tradition, including the United States. The book also considers the civic value of caregiving as a service to citizens and the country, contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents. This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work. As a whole, *Earned Citizenship* provides a non-humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation.

Communication and Media Ethics Patrick Lee Plaisance, 2018-09-10. Ethics in communication and media has arguably reached a pivotal stage of maturity in the last decade, moving from disparate lines of inquiry to a theory-driven interdisciplinary field presenting normative frameworks and philosophical explications for communicative practices. The intent of this volume is to present this maturation to reflect the vibrant state of ethics theorizing and to illuminate promising pathways for future research.

Part-Time for All Jennifer Nedelsky, Tom Malleson, 2023. In *Part-Time for All*, Jennifer Nedelsky and Tom Malleson propose a plan to radically restructure both work and care and offer a solution to a fundamentally dysfunctional imbalance of work and care obligations. They argue that no competent adult should do paid work for more than 30 hours per week, and everyone should also contribute roughly

22 hours of unpaid care to family friends or their chosen community of care While such a transformation would require radical changes to our cultural norms as well as to our workplace practices this book carefully dissects the current crisis of care and offers a realistic plan forward The Promise of Welfare in the Postwar British and Anglophone Novel Kelly M. Rich, 2023 A study of the literature of the Second World War and its aftermath focusing on the welfare state and wartime visions of rebuilding Britain *Prenatal Genetic Testing, Abortion, and Disability Justice* Amber Knight, Joshua Miller, 2023 Prenatal Genetic Testing Abortion and Disability Justice explores the intent and effects of prenatal screening in connection to women's bodily autonomy and disability rights addressing themes at the intersection of genetic medicine policymaking critical disabilities studies and political theory *Philosophy of Care* Joaquim Braga, Mário Santiago de Carvalho, 2021-12-09 In this book authors from a wide interdisciplinary spectrum discuss the issue of care The book covers both philosophical and therapeutic studies and contains a three pronged approach to discussing the concepts of care vulnerability otherness and therapy Above all it is a matter of combining in a plural form a path with multiple theoretical and conceptual bifurcations but which always point to an observation of society from the perspective of human vulnerability **The Heart of Justice** Daniel Engster, 2007-04-26 The Heart of Justice proposes a new framework of political justice based upon the practice of caring Integrating the insights of earlier care theorists with the concerns of traditional justice theorists Engster forges a new synthesis between care and justice and further argues that the institutional and policy commitments of care theory must be recognized as central to any adequate theory of justice Engster begins by offering a practice based account of caring and a theory of obligation that explains why individuals should care for others He then systematically demonstrates the implications of this account of caring for domestic politics economics international relations and culture In each of these areas he reviews the contributions of earlier care theorists and then extends their arguments to provide a more complete description of the institutions and policies of a caring society Care ethics is further put in dialogue with diverse cultural and religious traditions and used to address the challenges of multicultural justice cultural relativism and international human rights More fully than other works on care theory this book provides an overarching account of the institutions and policies of a caring society The Heart of Justice provides the first full account of a theory of justice based upon care ethics and should be of interest to anyone interested in thinking about the nature of our moral obligations and the institutions of a just society

Born Innocent Michael J. Sullivan, 2023 Over seven percent of all children in the United States have experienced a parental incarceration Children and other dependents suffer the collateral consequences of preventive justice measures increasingly used by liberal democratic countries to combat a broad range of suspected crime and anti state activities But what does the state owe to the innocent dependents of accused caregivers In Born Innocent Michael J Sullivan explores the impact of vicarious punishment on children with a particular focus on children subject to family separation based on their identity allegiances and immigration status The book provides one of the first unified treatments of state sponsored family

separation and its impact on disadvantaged citizens and immigrants *Caring for Liberalism* Asha Bhandary, Amy R. Baehr, 2020-12-29 *Caring for Liberalism* brings together chapters that explore how liberal political theory in its many guises might be modified or transformed to take the fact of dependency on board In addressing the place of care in liberalism this collection advances the idea that care ethics can help respond to legitimate criticisms from feminists who argue that liberalism ignores issues of race class and ethnicity The chapters do not simply add care to existing liberal political frameworks rather they explore how integrating dependency might leave core components of the traditional liberal philosophical apparatus intact while transforming other aspects of it Additionally the contributors address the design of social and political institutions through which care is given and received with special attention paid to non Western care practices This book will appeal to scholars working on liberalism in philosophy political science law and public policy and it is a must read for feminist political philosophers Distributive Justice Debates in Political and Social Thought Camilla Boisen, Matthew C. Murray, 2015-10-23 Who has what and why in our societies is a pressing issue that has prompted explanation and exposition by philosophers politicians and jurists for as long as societies and intellectuals have existed It is a primary issue for a society to tackle this and these answers have been diverse This collection of essays approaches some of these questions and answers to shed light on neglected approaches to issues of distribution and how these issues have been dealt with historically socially conceptually and practically The volume moves away from the more dominating and traditionally cast understandings of distributive justice and shows novel and unique ways to approach distributive issues and how these can help enlighten our course of action and thought today by creating new pathways of understanding The editors and contributors challenge readers by exploring the role and importance of restorative justice within distributive justice exploring the long shadow of practices of trusteeship and concepts of social and individual rights and obligations in welfare and economic systems social protection provision schemes egalitarian practices and post colonial African political thought *Distributive Justice Debates in Political and Social Thought* empowers the reader to cast a more critical and historically complete light on the idea of a fair share and the implications it has on societies and the individuals who comprise them

The Caring City Juliet Davis, 2022-04-28 In this important contribution to urban studies Juliet Davis makes the case for a more ethical and humane approach to city development and management With a range of illustrative case studies the book challenges the conventional and neoliberal thinking of urban planners and academics and explores new ways to correct problems of inequality and exclusion It shows how a philosophy of caring can improve both city environments and communities This is an original and powerful theory of urban care that can promote the wellbeing of our cities many inhabitants *The Politics of Dependence* Patrick J. L. Cockburn, 2018-05-08 The central claim of this book is that the dichotomy between economic dependence and economic independence is completely inadequate for describing the political challenges faced by contemporary capitalist welfare states The simplistic contrast between markets and states as sources of

income renders invisible the relations of dependence established in our basic economic institutions such as the family property and money This book is a work of political theory that attacks narrow conceptions of dependence and identifies distinct senses of dependence that might allow political communities to make clearer decisions about the justice of our economic institutions and practices Inheritance for example is as much a form of dependence as support by a welfare state but these are never compared in debates about economic justice This book begins the work of comparing forms of economic dependence and argues that economic dependence is always an issue of both vulnerability and parasitism It builds bridges between political theory and social science and is of relevance to those concerned with social and economic justice in and beyond contemporary capitalist welfare states Handbook of Family Policy Guðný Björk Eydal,Tine Rostgaard,2018-11-30 The Handbook of Family Policy examines how state and workplace policies support parents and their children in developing earning and caring With original contributions from 44 leading scholars this Handbook provides readers with up to date knowledge on family policies and family policy research taking stock of current literature as well as providing analyses of present day policies and where they should head in the future
