## **Juvenile Justice A Reference Handbook 2nd Edition Contemporary World Issues:**

**Juvenile Justice** Donald J. Shoemaker, Timothy W. Wolfe, 2016-01-18 Authoritative current and easy to use this book is an outstanding resource for readers looking to gain an accurate and thorough understanding of American juvenile justice Juvenile delinquency has been of interest to the general public and academic scholars for many decades and it has been an ongoing societal problem for the same amount of time Delinquency covers a range of behaviors from minor offenses such as trespassing or vandalism to the more serious crimes often associated with gangs that include murder Juvenile Justice A Reference Handbook puts juvenile justice under the microscope surveying its long history and key issues exploring the myriad of problems and controversies tied to the juvenile justice system and explains how policymakers and legal professionals have tried to solve these vexing issues The book first presents historical and contemporary discussions of juvenile justice especially in the United States The next chapters address problems controversies and possible solutions for juvenile justice present insightful diverse perspectives from leading experts and profile important figures in the juvenile justice system and the field of crime and delinquency The book also contains data and primary documents that show who gets processed through the juvenile justice system and for what kinds of criminal acts *Human Trafficking* Alexis A.

Aronowitz, 2017-02-24 Offering an up to date and comprehensive resource for students and general readers investigating human trafficking this book examines the phenomenon in its many forms the factors contributing to its existence the victims it affects and those who perpetrate this horrific crime The horrific reality is that millions of human beings are bought and sold every year worldwide Human trafficking is not an obsolete practice and these crimes are not rare in occurrence Recent examples of human trafficking such as the abduction of hundreds of Nigerian schoolgirls by the terrorist organization Boko Haram and depictions of trafficking in films such as Taken have brought human trafficking squarely into the public eye This book offers a comprehensive understanding of human trafficking in its many forms It examines the traffickers who range from single operators to large transnational organizations and investigates how they coerce deceive and exploit their victims in the domestic service farming construction and sex industries as well as in the harvesting of organs The coverage includes common practices of human trafficking like sexual exploitation of women in Western and Central Europe labor exploitation in the Middle East and the exploitation of children in Western and Central Africa Readers are introduced to various experts who have rescued and worked with victims prosecuted cases and conducted research to gain more insight into this crime and serious abuse of human rights and they will gain insight into how a number of people and organizations are working to combat human trafficking and protect victims Primary source documents that include reports by government international organizations and NGOs serve to aid readers in acquiring more knowledge on the topic *Youth Substance Abuse* David E. Newton, 2016-07-18 This text provides readers with an in depth understanding of the essential aspects of youth substance abuse an important contemporary personal social and public health issue Humans have been using natural and synthetic

chemicals for at least two millennia primarily for the purpose of treating medical problems but also for recreational purposes The 2014 Monitoring the Future survey of eighth tenth and twelfth grade students indicates a general decline in the use of illicit drugs over the last two decades On the other hand perceptions among youth that certain types of drug use like marijuana and e cigarettes are harmless are growing Youth Substance Abuse A Reference Handbook provides an overview of the history and development of youth substance abuse along with a discussion of the medical social psychological legal and economic issues associated with youth substance abuse both in the United States and other parts of the world The book begins with a comprehensive introduction to the subject of youth substance abuse that explains how modern societies have reached the point where abuse of both legal and illegal substances is a major health issue in many nations Readers will learn about the effects of substances such as cocaine marijuana and heroin as well as substances that are typically legal but have deleterious health social or psychological effects such as tobacco alcohol prescription drugs and electronic cigarettes Subsequent chapters address how and why youth substance abuse has become a problem in the United States and other countries the demographics of this widespread problem the direct and indirect effects of youth substance abuse and addiction and the range of services and methods that are available for treating substance abuse

*Modern Sport Ethics*  
Angela Lumpkin,2016-12-12 The descriptions and examples of unethical behaviors in sport in this book will challenge readers to rethink how they view sport and question whether participating in sport builds character especially at the youth and amateur levels Sport potentially can teach character as well as social and moral values but only when these positive concepts are consistently taught modeled and reinforced by sport leaders with the moral courage to do so The seeming moral crisis threatening amateur and youth sport evidenced by athletes coaches and parents alike making poor ethical choices and ongoing scandals regarding performance enhancing drug use by professional athletes make sports ethics a topic of great concern This work enables readers to better understand the ethical challenges facing competitive sport by addressing issues such as gamesmanship doping cheating sportsmanship fair play and respect for the game A compelling read for coaches sport administrators players parents and sport fans the book examines specific examples of unethical behaviors many cases of which occur in amateur and educational sports to illustrate how these incidents threaten the perception that sport builds character It identifies and investigates the multiple reasons for cheating in sport such as the fact that the rewards for succeeding are so high and the feeling of athletes that they must behave as they do to level the playing field because everyone else is cheating being violent taking performance enhancing drugs or doing whatever it takes to win Readers will gain insight into how coaches and sport administrators can achieve the goals for youth interscholastic intercollegiate and Olympic sport by stressing moral values and character development as well as see how specific recommendations can help ensure that sport can serve to build character rather than teach bad behavior in the pursuit of victory

**Global Pandemic Threats** Michael C. LeMay,2016-08-29 This book offers an accessible reference on epidemic and pandemic diseases that

provides background information and history explains why pandemics are a newly emerging threat identifies the difficulties in coping with them and provides hope in the form of modern medicine *Global Pandemic Threats A Reference Handbook* provides all encompassing coverage that introduces key concepts and traces the history of pandemics enabling readers to grasp the complexity of the global problem and the difficulties of executing effective solutions Written in an easy to understand manner it provides a go to resource that systematically addresses dozens of diseases of the past as well as re emergent or newly emerging pathogens that have the potential of becoming pandemics The book s extensive coverage of past pandemics includes bubonic plague cholera influenza measles smallpox tuberculosis typhoid fever and yellow fever and the re emergence of malaria measles pertussis whooping cough poliomyelitis and other contagious diseases It discusses a broad range of newly emerging viral threats such as AIDS HIV avian flu anthrax botulism Ebola E coli Gulf War syndrome hanta virus Lassa virus Lyme disease Marburg virus MERS MRSA Ricin Sin Nombre virus SNV and West Nile virus The work offers perspectives from individuals interested and involved in the fight including medical professionals and health care workers profiles of key organizations and persons a helpful timeline of past and present pandemic outbreaks and a glossary of key terms and concepts

*The Global Water Crisis* David E. Newton, 2016-04-25 How is water scarcity becoming a serious problem worldwide including in the United States This book provides a broad overview of water sanitation and hygiene problems faced by both developing and developed nations around the globe and suggests how these problems can be solved by imaginative and innovative thinking Human society depends on sufficient clean water In many parts of the world however this most basic commodity is in very short supply Even in developed first world nations climate change and other factors have begun to create alarming water supply issues *The Global Water Crisis A Reference Handbook* provides a detailed overview of this important topic enabling readers to understand the nature of the world s water sanitation and hygiene WASH problems and to know what resources are best for conducting their own research on the topic The first chapter of the book provides the historical background information pertaining to the world s water and sanitation problems the second chapter documents the problems explores the issues and presents potential solutions for understanding the nature of WASH issues The other sections provide the needed resources for readers to study the issue of the global water crisis further perspective essays primary documents biographical profiles data and documents an extended annotated bibliography a chronology and a glossary

*The Right to Die* Howard Ball, 2017-01-26 This book provides a comprehensive and contemporary examination of the right to die issues facing society now that vast improvements in public health care and medicine have resulted in people not only living longer but taking much longer to die often in great pain and suffering In 1900 the average age at which people died in America was 47 years of age the primary causes of death were tuberculosis and other respiratory illnesses In the 21st century as a result of better health care and working conditions as well as advances in medical technology we live much longer as of 2016 about 80 years A much larger proportion of Americans now

die from chronic diseases that generally appear at an advanced age such as heart disease cancer or chronic obstructive pulmonary disease COPD Should this fundamental change in human lifespan alter how society and government view right to die legislation What are the pros and cons of giving a mentally competent person who is terminally ill and in great pain the right to end his or her life The Right to Die A Reference Handbook provides a complete examination of right to die issues in the United States that dissects the complex arguments for and against a person s liberty to receive a physician s assistance to hasten death It covers the legal aspects and the politics of the right to die controversy analyzes the battles over the right to die in state and federal courts and supplies primary source documents that illustrate the political medical legal religious and ethical landscape of the right to die Additionally the book examines how members of our society typically die has changed in the past 150 years and how the practice of medicine has evolved over that time explains why the right to die is strongly opposed by many religious groups as well as members of the medical profession considers the slippery slope argument against doctor assisted suicide and identifies the reasons that the disabled the poor the elderly and infirm and some members of ethnic racial and religious minority groups typically fear physician assisted death

#### Gun Control in the United States

Gregg Lee Carter,2017-01-23 This up to date second edition work will stimulate and clarify readers thinking on the key issues surrounding guns in the United States especially on the debate over gun control Most public debate and discussion about guns in U S society is rarely guided by research not surprising as most individuals have a personal opinion on this highly inflammatory topic based on their upbringing or personal experiences Additionally most research about gun use in America is confusing and contradictory making it difficult for citizens to gain much from their attempts to investigate the topic objectively This book offers concise understandable coverage of all aspects of the issue including incidence of gun violence gun control gun rights government regulation legislation and court decisions gun organizations for gun control and for gun rights gun enthusiast subcultures for example hunters target shooters and collectors and U S attitudes toward guns Many of the covered topics are placed in historical and cross cultural perspective The new edition of Gun Control in the United States A Reference Handbook enables the reader to navigate and interpret the research to become sufficiently educated on any specific aspect of the gun issue to make an informed decision for example whether to support stricter or more lenient gun control whether to become a gun owner whether to support a particular political party or candidate or whether to develop or to refine a particular philosophy regarding guns Other aspects of the contemporary gun debate that are addressed include whether the Supreme Court s ruling that the Second Amendment guarantees an individual right will withstand future challenges whether the strong gun regulations used in Europe would be effective and applicable in reducing gun violence in the United States and whether the diversity explosion created by the high rate of immigration from countries where guns are strictly controlled will soon change the politics of the U S gun control debate

#### DNA Technology

David E. Newton,2016-12-12 This accessibly written book introduces readers to DNA one of the most important technologies for the

manipulation of all forms of life from simple bacteria to plants and animals It also addresses the most important social ethical political economic and other issues raised by this form of technology The great strides made in our understanding of the structure and function of DNA in recent decades have led to applying this invaluable knowledge to use in serving humanity For example recent discoveries in the field of genetic editing have created the potential for the creation of life forms de novo a possibility that results in profound ethical issues for the human race that are just beginning to be discussed What other positive and potentially negative developments are coming our way with continuing advancements in DNA research DNA Technology A Reference Handbook provides an up to date historical overview and general technical background to the topic as well as a broad introduction to current issues related to the development of DNA technology such as genetically modified organisms the use of DNA technology in the forensic sciences and genetic testing and genetic therapy Written by David E Newton an author and former teacher who has dedicated a lifetime to authoring educational texts on science and technology this book examines the history of DNA technology from its discovery in the 1950s to the present day and covers recent advances such as new methods for gene editing including CRISP Cas9 technology Readers need to have little or no background knowledge of the technology of genetic engineering to improve their understanding of DNA based technologies and how DNA research influences many current issues and debates in agriculture food science forensics public health and other fields The single volume work is particularly well suited to students and young adults because of the range of references included that serve further study such as a glossary of terms a chronology and an extensive annotated bibliography

**Food Safety** Nina E. Redman, Michele Morrone, 2017-02-13 Presenting compelling and current information about some of the most important food safety issues this book is an invaluable reference for anyone interested in avoiding foodborne disease or understanding how food safety standards could be improved Food safety affects everyone For citizens who live in industrialized nations it is easy to assume that our foods are always rigorously inspected and assessed for safety While food safety standards and regulations are in place to protect the consumer public food safety problems do exist according to the Centers for Disease Control and Prevention each year 48 million Americans are sickened by food 128 000 people are sick enough that they are hospitalized as a result and 3 000 people die from foodborne pathogens This third edition of Food Safety A Reference Handbook examines the history of food safety and describes in detail key events and trends that have created the food safety issues of today It explores the many controversies concerning food consumption including contaminants in food GMOs factory farm produced meat and standards regarding the labeling of food products as well as the ways that these issues have been handled by authorities Readers will find this book s overview of food safety topics informative and highly accessible Additionally the perspectives chapter provides varying viewpoints from food safety professionals and researchers on key issues

**Marijuana** David E. Newton, 2017-01-16 This single volume resource provides sound up to date information and authoritative resources for research on the controversial topics of the use of marijuana for

medical and recreational purposes and the effects of marijuana use on society The use of marijuana has consistently been a highly controversial polarizing and emotional topic so much so that social cultural and religious factors have largely influenced public opinion legislation and law enforcement's treatment of marijuana use At the same time much of the scientific information about the plant has largely been ignored in the policies and practices of the United States over the past 100 years Marijuana A Reference Handbook provides detailed coverage of the history and background of marijuana use in society with special emphasis on the present day in the United States It outlines the development of federal and state legislation with respect to marijuana use over the last century focusing on changes that are taking place in the second decade of the 21st century and examines the pros and cons of the use of marijuana for a variety of purposes The book presents readers with unbiased research based information about the effects benefits and risks of marijuana use Readers will also learn about the role of hemp across human history and about very recent legislative action on the use of marijuana for both recreational purposes and medical use

**Student Debt** William Elliott III, Melinda K. Lewis, 2017-01-26 Offering answers to essential questions about student debt and many connected issues this book examines student debt in the United States at every stage of the process from the banks that issue the loans to the colleges and universities that collect the payments Student lending in the United States is one of the most controversial issues in contemporary American discourse Are these loans the only option for Americans who want to attend college and university in order to attain the best careers and have a productive enjoyable life Should the predatory lending practices of for profit colleges and universities be stopped How can limits be imposed on student lending amounts without preventing students from getting the education they need to succeed The book explains why so many students are borrowing large amounts of money to attend college considers whether the cost of higher education is simply too high and if there should be a cap on how much money students can borrow explains what is contributing to the rising rate of borrowers defaulting on their loans and predicts whether the so called student loan bubble is in danger of popping The Data and Documents chapter analyzes data gathered from discussions about student debt This information enables readers to better understand who is borrowing student loans what the money from the student loans is going toward what individuals have the authority to decide who qualifies for these loans and what is being done to curb wasteful student spending

**Same-Sex Marriage** David E. Newton, 2016-09-26 Same sex marriage continues to be a polarizing subject in the United States and other parts of the world This new edition of Same Sex Marriage A Reference Handbook brings readers up to date on the status of same sex unions from social legal political and historical perspectives According to Pew Research poll data in 2001 the majority of Americans opposed same sex marriage 57 percent against 35 percent in support As of 2015 a majority of Americans 55 percent supported same sex marriage with 39 percent expressing opposition The landmark Obergefell v Hodges case in which the U S Supreme Court held in a 5 4 decision that the fundamental right to marry is guaranteed to same sex couples is likely further influencing opinions among U S citizens Still

controversy and heated debate continues to ensue on the social legal and political implications of same sex marriage The second edition of *Same Sex Marriage A Reference Handbook* presents thorough coverage of recent changes in the legal status of same sex marriage in the United States as well as essays that provide historical perspectives on same sex marriage an extensive up to date bibliography a collection of primary source documents a glossary and a chronology that will serve readers studying the topic New material includes a detailed discussion of the 2015 Supreme Court of the United States decision as well as coverage of issues that have arisen as a result of the Obergefell case such as the debate over religious freedom and LGBT civil rights legislation *21st Century Anthropology: A Reference Handbook* H. James Birx, 2010-06-10 Highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology *21st Century Criminology: A Reference Handbook* J. Mitchell Miller, 2009-08-06 Criminology has experienced tremendous growth over the last few decades evident in part by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U S and internationally Evolutionary paradigmatic shift has accompanied this surge in definitional disciplinary and pragmatic terms Though long identified as a leading sociological specialty area criminology has emerged as a stand alone discipline in its own right one that continues to grow and is clearly here to stay Criminology today remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes effects and responses to crime *21st Century Criminology A Reference Handbook* provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths The individual chapters have been designed to serve as a first look reference source for most criminological inquires Both connected to the sociological origins of criminology i e theory and research methods and the justice systems response to crime and related social problems as well as coverage of major crime types this two volume set offers a comprehensive overview of the current state of criminology From student term papers and masters theses to researchers commencing literature reviews *21st Century Criminology* is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology This two volume set in the SAGE 21st Century Reference Series is intended to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon detail or density as a journal article or research handbook chapter 100 entries or mini chapters highlight the most important topics issues questions and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century Curricular driven chapters provide students with initial footholds on topics of interest in researching term papers in preparing for GREs in consulting to determine directions to take in pursuing

a senior thesis graduate degree career etc Comprehensive in coverage major sections include The Discipline of Criminology Correlates of Crime Theories of Crime Justice Measurement Research Types of Crime and Crime the Justice System The contributor group is comprised of well known figures and emerging young scholars who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers students and general readers alike with fundamental and detailed information for each topic Uniform chapter structure makes it easy for students to locate key information with most chapters following a format of Introduction Theory Methods Applications Comparison Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access wherever they may be

**Chemical and Biological Warfare** Albert J. Mauroni, 2006-11-27 A thorough handbook covering the facts history and controversies surrounding our most controversial and misunderstood unconventional weapons Unlike most books on this topic the expanded second edition of Mauroni's popular reference handbook is neither sensationalistic nor moralistic Instead it offers readers a reasoned thorough and fact based introduction to this highly charged issue Covering the period from World War I through the Iraq War Chemical and Biological Warfare not only describes the development of key chemical and biological agents such as anthrax tularemia brucellosis VEE Q fever and botulinum toxin it also assesses the threats we face compares military CB warfare with terrorist incidents explains effective defensive measures and clarifies the responsibilities of the various federal agencies charged to address these issues With extensive new material this edition provides an authoritative and up to date introduction to this vitally important topic

The Internet and Society Bernadette H. Schell, 2006-12-21 An examination of the social impact of the Internet this volume explores political social technical legal and economic controversies in a manner accessible to the general reader Today more than one billion people worldwide use the Internet for communication shopping business and research But in the last five years they have lost over 10 billion to malicious computer attacks alone Is there a way to keep the benefits and avoid the problems The Internet and Society A Reference Handbook explores both the positive aspects of the Internet and its darker side Topically organized it chronicles the background and history of the Internet with a focus on the 1960s and beyond Through analysis of the latest research in sociology political science economics law and computer science it examines problems varieties of cybercrime controversies and solutions related to the Internet's phenomenal growth It also illuminates the likely directions of the Internet's future and the ongoing challenges it presents to societies around the globe

**Juvenile Justice in Global Perspective** Franklin E. Zimring, Maximo Langer, David S. Tanenhaus, 2017-05 Provides a comparison of criminal justice and juvenile justice systems across the world looking for points of comparison and policy variance that can lead to positive change in the United States Contributors discuss important issues such as the relationship between political change and juvenile justice the common labels used to unify juvenile systems in different regions and in different forms of government the types of juvenile systems that exist and how they differ and more Furthermore they use

data on criminal versus juvenile justice in a wide variety of nations to create a new explanation of why separate juvenile and criminal courts are felt to be necessary From publisher description      **Illegal Immigration** Michael C. LeMay, 2015-09-22 A valuable resource for high school college and general readers this book provides an up to date comprehensive examination of illegal immigration in America addressing its complex history comparing its occurrence today with the past and explaining why a solution is so difficult to enact Who is coming into the United States illegally and why What compels people to leave their country of origin Is the United States responsible for taking care of the more than 11 million individuals who are here illegally Are illegal immigrants helping or harming our nation s economy and infrastructure Should our borders be secured as called for by many politicians This book examines the history of illegal immigration in the United States addressing the tough questions about the issue and describing in detail the most significant issues and events in recent decades It succinctly tackles the topic of illegal immigration without bias explores the myriad of problems and controversies that have arisen due to illegal immigration and explains how lawmakers have historically tried and continue to try to solve these issues This thoroughly revised and updated second edition of *Illegal Immigration A Reference Handbook* covers the debate over the vexing and seemingly intractable illegal immigration problem from all angles and updates the discussion to 2015 It covers the key court executive and legislative branch actions on the matter and examines both state and national level government attempts to cope with illegal immigration The book also contains a variety of primary source documents in summary format that cover all the key laws enacted presidential or state governor s executive actions taken and key court decisions since 1985 These documents not only provide factual data but also give context that allows readers to better grasp the complexity of the problem and the difficulty in trying to improve the situation through regulation      *Senior High Core Collection*
