## **Maker Projects Guide:**

*Make* Mark Frauenfelder, 2013 MAKE Magazine's annual Maker Faires have become the engine that drives the diverse and ever expanding maker movement. At the heart of these events are the projects that their clever creators bring to show off and to inspire others to create. This special edition of MAKE celebrates the best of these projects as seen at the Faires and in the pages of the magazine as well as profiles of the makers who create them and the Faires that bring them together. **The Maker's Guide to the Zombie Apocalypse** Simon Monk, 2015-10-01 Where will you be when the zombie apocalypse hits? Trapping yourself in the basement. Roasting the family pet. Beheading reanimated neighbors. No way! You'll be building fortresses, setting traps, and hoarding supplies because you, savvy survivor, have snatched up your copy of *The Maker's Guide to the Zombie Apocalypse* before it's too late. This indispensable guide to survival after Z-day, written by hardware hacker and zombie anthropologist Simon Monk, will teach you how to generate your own electricity, salvage parts, craft essential electronics, and out-survive the undead. **Terrific Makerspace Projects** Juan Denzer, Sharona Ginsberg, 2020-08-12 *Terrific Makerspace Projects: A Practical Guide for Librarians* features fifteen customizable projects that were designed as projects created by librarians, makerspace facilitators, rather than projects in which librarians guided others, makerspace users. These projects were showcased during library events with the goal of promoting the makerspace as well as other library services while using them to build connections both within and external to the library. This book outlines maker projects in detail and provides plenty of photos and resources so readers can recreate, customize, and implement them. People at all skill levels in every type of makerspace will find something they can try with projects that range from simple and low-tech to more complex and tech-heavy. Most projects are inexpensive, taking advantage of free online tools, upcycled or repurposed materials, and low-cost electronics such as Arduinos. Each project can be approached as an offering for makerspace visitors or can be created by library employees themselves as tools to engage in outreach and promote the makerspace library services to the institution and more. Every project has been created and tested in a real library setting by the authors who present lessons learned, possible variations, and different ideas on how to implement the projects to their fullest extent. Explore the idea of using the makerspace to highlight the value of other library services or simply find new and fun ways to engage with your users. *The*

book also offers suggestions on how to be a great maker and tips on makerspace safety finding low cost materials and more Whether you re just beginning your makerspace or looking for fresh ideas for your established space this book has something to offer *Make: Maker Projects Guide* Mark Frauenfelder,2013-08-02 MAKE Magazine s annual Maker Faires have become

**Watershed Management Projects** H. M. Gregersen, 1987-01-01 *Public Investment Management Reference Guide* Jay-Hyung Kim, Jonas Arp Fallov, Simon Groom, 2020-03-03 The Public Investment Management PIM Reference Guide aims to convey country experiences and good international practices as a basis for decisions on how to address a country specific PIM reform agenda The country references are drawn largely from previous diagnostics and technical assistance reports of the World Bank The application of country diagnostics and assessments has revealed a need to address the following issues when undertaking a country reform in PIM Clarification of the definition and scope of public investment and public investment management Establishment of a sound legal regulatory and institutional setting for PIM making sure it is linked to the budget process Allocation of roles and responsibilities for key players in PIM across government Strengthening of guidance on project preappraisal appraisal and selection prioritization procedures and deepening of project appraisal methodologies Integration of strategic planning project appraisal selection and capital budgeting Management of multiyear capital budget allocations and commitments Efforts to address effective implementation procurement and monitoring of projects Strengthening of asset management and ex post evaluation Integration of PIM and public private partnership PPP in a unified framework Rationalization and prioritization of the existing PIM project portfolio Development of a PIM database and information technology in the form of a PIM information system The PIM Reference Guide does not seek to provide definitive answers or standard guidance for the common PIM issues facing countries Nor does it seek to provide a detailed template for replication across countries this would be impossible given the diversity of country situations Instead each chapter begins with an overview of the specific reform issue lists approaches and experiences from different countries and summarizes the references and good practices to be considered in designing country specific reform actions 63
