monetary policy complemented each as they responded to large shocks It looks into the deterioration of debt dynamics in Asia Pacific as public debt has been rising persistently across most countries driven by declining growth and rising deficits particularly after the global financial crisis for advanced economies and after the pandemic for emerging market and low income countries The paper reviews fiscal frameworks across Asia Pacific including the use of fiscal rules medium term fiscal frameworks and fiscal councils It describes the characteristics of fiscal rules which usually focus on debt and budget balances and are set by law but tend to lack well specified enforcement mechanism or escape clauses It highlights that compliance with the rules has worsened following the pandemic as in contrast with the outturns before the pandemic Asia Pacific countries tend to show larger deviations relative to other regions It also shows that despite the increase adoption of medium term fiscal frameworks in Asia Pacific forward guidance has been hampered by the lack of binding targets and ex post analysis Moreover they do not seem to have resulted in better macro fiscal forecast in part due to weak capacity and enforcement lack of integration with the annual budget and exposure to shocks with risk analysis mostly limited to qualitative discussions Proposed reforms seek to implement a comprehensive risk based approach to public finances They focus on strengthening the medium term orientation of fiscal policy through credible medium term fiscal plans fiscal rules linked to the medium term strategy and the annual budgets and a stronger reliance on fiscal councils They also emphasize the need for a broader view of the public sector as fiscal policy is being conducted through multiple channels which requires assessing and managing vulnerabilities and a significant improvement in fiscal statistics They also address aging and climate change by focusing on assessing large intergenerational trade offs reporting on long term debt dynamics and on green medium term fiscal frameworks that incorporate the effects of climate change and climate policies **Development Policy and Law**
