Guide Slr Rifle:

SAS Ultimate Guide to Combat Robert Stirling, 2012-04-20 I've written this book to help you the soldier kill the enemy when you get the chance and most importantly come back home in one piece To achieve this aim I've covered combat training from boot camp up to the level required of a Special Forces soldier And then gone on to add a few tricks of my own I've done a bit of soldiering Northern Ireland SAS deployments Bush Wars in Africa life as a merc and been in my fair share of fire fights I've only been wounded twice and learnt from both occasions I'm going to use my experience to teach you to play the game I'm not going to teach you how to survive in snowy mountains for a month with only one tea bag or how to kill a room full of people with only a toothpick There are plenty of books that do that already This book will teach you how to fight and survive war in the 21st century from the tools of the trade to avoiding getting shot or blown up from surviving an interrogation to defending a position This is a book not for the faint hearted But then neither is war **Comprehensive**
