music with Studio One's extensive set of production tools. This practical goal-oriented resource will help musicians start producing their own music with Studio One and teach audio professionals how to include Studio One in their production workflow. The book begins by showing you how to set up Studio One to work smoothly on your system. The following chapters will walk you through the process of creating a project along with recording audio and using virtual instruments to construct a MIDI arrangement. As you advance you'll find out how to edit your songs to perfection using Melodyne Audio Bend and an extensive collection of MIDI modifiers. You'll also discover how to mix in Studio One with the effects plugins included in it along with applying audio mastering in the Project window. Throughout this book you'll gain the skills needed to leverage Studio One confidently and effectively as well as build your own unique music production workflow. By the end of this book you'll be able to effortlessly translate your musical ideas into complete songs using Studio One's powerful tools. What you will learn: Configure Studio One and run it smoothly in your production environment. Record and edit MIDI using Studio One's excellent manipulation tools. Record audio and edit confidently using Melodyne and Audio Bend. Work with Studio One's stock virtual instruments to create an arrangement. Mix a song with Studio One's stock effects plugins. Master a song using the Project window. Take your music on stage with the Show window. Who this book is for: This book is for musicians, bands, and composers who want to learn Studio One from scratch to create their own music on a professional level. Producers and audio professionals who already have experience in another Digital Audio Workstation but now wish to switch to Studio One or include it in their workflow will also find this book useful. Basic knowledge and experience of musical processes such as arranging, recording, mixing, and mastering are needed to make the most of this book. However, this book will teach you how to perform these processes more effectively in Studio One. **The Complete Guide to Music Technology** Darren Jones, 2016
