Alexander, 2007-04-01 Twenty second century historians will note that a new World War began on 9 11 2001 In reality it began much earlier Competing value systems and the lust for natural resources will precipitate an inevitable clash of civilizations Currently we face elusive foes foes who play by other rules and in fact we are already engaged in brutal truly asymmetric conflict with varied forms of fighting terrorism is but an isolated part The increasing number of polymorphic hostilities requires revolutionary and unconventional responses Special operations are the norm Nanoscale biological and digital technologies have transformed how we fight future wars Tactical lasers that zap pinpoint targets at twenty kilometers are being developed as is the millimeter wave Active Denial System that causes intense pain to those exposed The Mother of all Bombs has been dropped as have thermobaric weapons that destroy caves and bunkers Robots roam the battlefield while exotic sensors catalogue nearly every facet of our lives Paralyzing electrical shock weapons are in the hands of police Even phasers on stun are closer than you think Winning the War details the technologies and concepts necessary to ultimately determine the outcome of this global conflict Via realistic scenarios from recovering tourists kidnapped by terrorists to bringing down drug cartels in the Amazon and even preventing Armageddon in the Middle East Winning the War provides an insider s view into how these futuristic weapons will be used and into the complexities of modern warfare Bold and controversial measures are prescribed including the essential nature of absolute domination of space Winning the War makes clear that drastic and innovative actions will be necessary to ensure our national survival Precision-guided Munitions and Human Suffering in War James E. Hickey, 2016-04-08 James Hickey proceeds from the premise that throughout history humans have demonstrated a proclivity for using violence against one another as a means to achieve an end means enabled in many respects by the technologies available at the time Advancing technology has often been a prime enabler of ever increasing levels of violence and attendant human suffering At a few junctures in history however certain technologies have seemingly provided the armed forces that possess them the ability to fight wars with decreasing levels of violence and suffering Today precision guided munitions PGMs with their high degree of discrimination and accuracy again hold such promise This book seeks to answer the question Do PGMs mitigate suffering in war and have these weapons changed the way decisions regarding war

and peace have been made Answering this question helps us understand possible shifts in emphasis in modern warfare both in terms of methods employed and of the greater concern placed on limiting human suffering during conflict This book will help students of ethics just war and military history and senior military and civilian leaders to understand the possible outcomes and wider implications of their strategic choices to use such technology **Monthly Catalog of United States Government Publications** United States.
