3. Hurricanes are large storms. They begin over the ocean. They gather heat and energy from the water. Hurricanes move slowly to land as they grow stronger. Hurricanes are dangerous because of their size. They are also dangerous because of high winds and big waves. Hurricanes can bring flooding, power outages, and tornadoes.
4. One way to stay healthy is to exercise. Exercise helps you feel better, lose weight, and grow stronger. Taking a walk is a form of exercise. It helps you go outside and get fresh air. Playing a sport is another form of exercise. This is a fun way to be active. Taking classes at a gym is a way to be healthy and fit. There are many types of exercise you can do to improve your health.
5. Birds are a special type of animal that you may see either walking or flying in the air. Birds have two legs, which are often covered with scales. A bird's body is covered with feathers and they have wings. The feathers help birds fly and control their body temperature. Birds have bones that are light so they can fly easily. A beak is a special word to describe the bird's nose. The beak is used for eating. Beaks can be different in size, shape, and color. Birds are a type of animal with very unique features.
