attacks and school lockdowns to very common occurrences such as bullying exposure to drugs and alcohol or various mental health issues They can experience these events both directly and indirectly from surfing the internet watching television or through their friends Our children spend a large portion of their day at school interacting with other students teachers and school personnel where these topics are raised and discussed This edited volume addresses how our teachers and school personnel can help students deal with these potentially traumatic events to reach the most positive possible outcomes This collection brings together leading experts including academics and professionals working in the field to provide the most current evidence based practices on how to help students who may have experienced or witnessed trauma It presents research and advice on how to respond to traumatic events regarding bullying drugs and alcohol sexual abuse mental health lesbian gay bisexual transgender and queer LGBTQ safety stranger danger childhood disruptive behaviors school shootings and lockdowns and terrorism It also includes a chapter focused on how to implement a school safety program Schools cannot deal with these issues alone effective strategies must engage family members and the broader community Hence the collection includes a chapter on how schools can partner with families and the communities they reside in to bring about positive change All this work pays close attention to cultural and religious sensitivity socio economic variabilities diversity issues and developmental stages

The Psychology of the Fruit of the Spirit Zoltán Dörnyei, 2022-11-01 For centuries the fruit of the Spirit has rightfully served as a wellspring of reflection on the virtues that epitomize the Christian life and character building However the notion of the fruit of the Spirit is not limited solely to forming the biblical foundation of ethical living Psychologist and theologian Zoltán Dörnyei argues that if we understand the nine attributes collectively as a concise portrayal of the ideal Christian self this approach places the notion of the fruit of the Spirit at the intersection of several important theological themes such as being conformed to the divine image the gradual advancement of the kingdom of God and new creation In *The Psychology of the Fruit of the Spirit* Dörnyei offers a scholarly exposition of the relevant theological content associated with the fruit of the Spirit Complementing his theological reflections with findings from the field of psychology he brings expertise in both psychology and theology to bear on this important biblical concept His integrated perspective helps to uncover the full meaning and theological potential of the fruit of the Spirit by helping to clarify the nature of its nine facets defining broader psychological dimensions that underlie the fruit and offering practical lessons for cultivating it in the Christian life

Unaccompanied Migrant Children Molly Greening, Hille Haker, 2018-12-12 Unaccompanied migrant children are the most vulnerable group of migrants and refugees Their experiences their contested legal status in the host countries and their treatment before during and after migration call for an ethics of child migration that places unaccompanied migrant children at the center This volume gathers international experts from the fields of social work social science law philosophy and Catholic ethics Social science psychological and social work studies analyses of US and international law of child migration refuge and asylum policies and several case studies regarding law enforcement

highlight the more recent shifts in policies both in the United States and Europe The current policies are confronted with two major normative frameworks that go beyond migration laws or the international refugee and asylum provisions the United Nations Convention of the Rights of the Child and the approach of the Catholic social ethics of migration The authors address the challenges of childhood under the conditions of migration the uprooting of lives the journey and transition into foreign countries and cultures and the transition into adulthood They discern the legal provisions and obstacles of the immigration process the securitization of the borders and the criminalization of unaccompanied migrant children Catholic social ethics the theological authors argue must offer more than its pastoral call for charity solidarity and compassion that is already in place inspiring multiple Catholic organizations groups and individuals The Christian emphasis on family rights and values originating in the story of the Holy Family is necessary yet insufficient when children are separated from their parents instead children must be recognized as vulnerable agents in their own right and the moral dilemmas families sometimes face be acknowledged US and European policies must be informed by the interpretation of justice and the principle of the common good must be held against the firewalling of the West As a political ethics Catholic social ethics must critique and reject the use of the Christian religion for nationalist policies and depictions of migrant children as a threat to the cultural identity of Western societies

Being Gay in Ireland Gerard Rodgers, 2018-06-20 In Being Gay in Ireland Resisting Stigma in the Evolving Present Gerard Rodgers argues that existing theory and research on the lives of gay men often exhibits a social weightlessness such that self beliefs are frequently decoupled from an analysis of society History and conventions inform and shape gay men s self beliefs yet

psychology as a discipline rarely dialogues with historical or political scholarship Rodgers corrects this oversight with a critical analysis of the decades of socio political struggle in Ireland and elsewhere Rodgers captures the lives of gay men who are situated in varied contexts and who all despite their different situations possess self beliefs that are shaped by wider historical traditions and evolving social change Rodgers argues that the nuances and particulars of self beliefs are significantly affected by wider historical traditions and evolving social and political changes Through his reconstruction Rodgers provides practitioners of applied psychological and therapeutic disciplines with an in depth picture of how historical context and social justice successes have interacted with gay men s self beliefs with a particular focus on how prosocial resistances against prejudice have incrementally eroded historical standards of gay stigma Effort-based decision-making and cognitive fatigue Michel Audiffren,Benjamin Pageaux,Rémi L.
