Headquarters And Subsidiaries In Multinational Corporations Strategies Tasks And Coordination:

Headquarters and Subsidiaries in Multinational Corporations S. Johnston, 2005-07-31 In the global business environment new organizational forms come and go but in today's multinational corporations the headquarters subsidiary link remains the primary channel by which the firm is managed. It facilitates strategy control and coordination and smoothes the progress of inter-unit product, personnel, factor and knowledge flows of every kind. Using data from CEOs of a large sample of Australian subsidiaries of foreign firms, this book brings new insights into the nature of this vital corporate relationship. **Politics and Power in the Multinational Corporation** Christoph Dörrenbächer, Mike Geppert, 2011-04-14 This book was first published in 2011. The current financial and economic crisis has negatively underlined the vital role of multinational companies (MNCs) in our daily lives. The breakdown and crisis of flagship MNCs such as Enron, WorldCom, Lehman Brothers, Toyota and General Motors does not merely reveal the problems of corporate malfeasance and market dysfunction. It also raises important questions both for the public and the academic community about the use and misuse of power by MNCs in the wider society as well as the exercise of power by key actors within internationally operating firms. This book examines how issues of power and politics affect MNCs at three different levels: the macro level, the meso level and the micro level. This wide-ranging analysis shows not only that power matters but also how and why it matters, pointing to the political interactions of key power holders and actors within the MNC, both managers and employees. *Multinational Corporations and Organization Theory* Christoph Dörrenbächer, Mike Geppert, 2017-02-24 This volume covers a range of on-going and newly emerging debates in the study of multinational companies (MNCs). A key aim is to consolidate and make available in one place new conceptual, methodological and critical MNC research. *Handbook of Business Discourse* Francesca Bargiela-Chiappini, 2009-05-12 The *Handbook of Business Discourse* is the most comprehensive overview of the field to date. It offers an accessible and authoritative introduction to a range of historical, disciplinary, methodological and cultural perspectives on business discourse and addresses many of the pressing issues facing a growing, varied and increasingly international field of research. The collection also illustrates some of the challenges of defining and delimiting a relatively recent and eclectic field of studies, including debates on the very definition of business discourse. Part One includes chapters on the origins, advances and features of business discourse in Europe, North America, Australia and New Zealand. Part Two covers methodological approaches such as mediated communication, corpus linguistics, organisational discourse, multimodality, race and management communication and rhetorical analysis. Part Three moves on to look at disciplinary perspectives such as sociology, pragmatics, gender studies, intercultural communication, linguistic anthropology and business communication. Part Four looks at cultural perspectives across a range of geographical areas, including Spain, Brazil, Japan, Korea, China and Vietnam. The concluding section reflects on future developments in Europe, North America and Asia. **Foreign Parent Control and International Joint Venture Performance** Huu Le Nguyen, 2009 Ulkomaalaisen emoyhtiön kontrolli ja

menestys kansainv lisiss yhteisyrityksiss **Leveraging Knowledge for Innovation in Collaborative Networks** Luis M. Camarinha-Matos,Iraklis Paraskakis,Hamideh Afsarmanesh,2009-09-21 Collaborative Networks A Tool for Promoting Co creation and Innovation The collaborative networks paradigm offers powerful socio organizational mechanisms supported by advanced information and communication technologies for promoting innovation This in turn leads to new products and services growth of better customer relationships establishing better project and process management and building higher performing consortia By putting diverse entities that bring different perspectives competencies practices and cultures to work together collaborative networks develop the right environment for the emergence of new ideas and more efficient yet practical solutions This aspect is particularly important for small and medium enterprises which typically lack critical mass and can greatly benefit from participation in co innovation networks However larger organizations also benefit from the challenges and the diversity found in collaborative ecosystems In terms of research in addition to the trend identified in previous years toward a sounder consolidation of the theoretical foundation in this discipline there is now a direction of developments more focused on modeling and reasoning about new collaboration patterns and their contribution to value creation Soft issues including social capital cultural aspects ethics and value systems trust emotions behavior etc continue to deserve particular attention in terms of modeling and reasoning Exploitation of new application domains such as health care education and active aging for retired professionals also help identify new research challenges both in terms of modeling and ICT support development **International synergy management: A strategic approach for raising efficiencies in the cross-border interaction process** Patrick Daum,2013-06-01 Global economic integration has changed business conditions significantly Corporations operating internationally and establishing foreign subsidiaries are facing the obligation as well as the challenge to profit from cross border interaction However potential synergetic benefits provided by the international environment are accompanied by even more demanding challenges This study elaborates to which extend German small and medium sized manufacturing businesses could benefit from the implementation of a strategic cross border synergy management The study is based on a single case study deriving the research hypotheses and a survey investigating cross border interaction throughout a sample of small and medium sized manufacturing businesses Based on the research findings this paper proposes a holistic framework designed for strategists of small and medium sized manufacturing business It outlines the establishment of the cross border synergy management concept as part of the corporate strategy and the efficient and effective management of international interaction Synergies are not realized by themselves they have to be identified and actively developed within a professionally coordinate process Management of synergy seeking organizations is asked for intensive efforts beyond daily operations Weber and Roventa 2006 **Strategy and Governance of Networks** George Hendrikse,Mika Tuunanen,Josef Windsperger,Gérard Cliquet,2008-07-20 The book emphasizes research in economics and management of networks as an interdisciplinary field by offering new theoretical perspectives and presenting new

empirical results on strategic and governance structure issues in cooperatives franchising networks alliances joint ventures and venture capital relations The authors apply different theoretical views on networks such as transaction cost theory property rights theory resource and knowledge based theory evolutionary theory information richness theory and social exchange theory **Success Factors of Regional Strategies for Multinational Corporations** Patrick

Heinecke,2011-01-15 This work examines the factors that drive the success of Multinational Corporations MNCs in their pursuit of regional strategies The author develops a comprehensive regional success factor model by which the effects of regional management autonomy and regional product and service adaptation on the regional success of MNCs as well as the interaction effects of regional orientation and inter regional distance are investigated The model is evaluated by means of the partial least squares PLS method on the basis of a survey based inquiry of the Fortune Global 500 firms with success indicator data for a period of nine years The findings highlight the importance of considering the different degrees of contextual influence in the design of regional strategies where low degrees of regional management autonomy and high levels of regional product service adaptation are found to be appropriate for MNCs to be regionally successful *Initiatives*

by Subsidiaries of Multinational Corporations Lars R. Dzedek,2018-01-29 In the field of international business it is increasingly recognized that Multinational Corporations MNCs can no longer rely on headquarters as the single source of competitive advantage Therefore growing interest centers on decentralized entrepreneurial initiatives that originate in their network of foreign subsidiaries Based on an extensive review of literature Lars R Dzedek develops a comprehensive framework to help explain how the setting in which a foreign subsidiary operates impacts its entrepreneurial initiatives and outcomes The author conducts an empirical investigation in 14 foreign units of two large MNCs and offers detailed case studies with rich insights into entrepreneurial subsidiary activities The Internationalisation Strategies of Small-country

Firms Howard Dick,Howard W. Dick,David Merrett,2007 The international business literature often struggles to depict a universal experience of internationalisation from the perspective of large countries This book seeks to enrich the literature by providing a nuanced overview of the little known Australian experience being an atypical case of a small to medium sized economy which liberalised rapidly from the 1980s outside any trading bloc Six data rich survey chapters explore Australia s mixed success in founding its own multinationals The experience of Australian firms is set in historical and comparative perspective including interactions with inward and specifically American FDI Five industry studies next consider why firms in retail wine and professional services were more successful than in financial services and shipping Nine detailed case studies of firms then identify the elements of administrative heritage strategy and learning that have been the key to success or failure The book concludes by outlining what can be learned from Australia s example and presenting implications for future research The Internationalisation Strategies of Small Country Firms will appeal to scholars researchers and postgraduate students in international business and international economics Multinational Corporations In Political Environments:

Ethics, Values And Strategies Usha C V Haley, 2001-11-12 Multinational Corporations in Political Environments advances and tests a theory of why foreign corporations leave host states Theories of international business have often ignored the complexity of corporate decisions about leaving foreign countries generally assuming that the economic and competitive reasons that prompt multinational corporations to enter host states also explain their subsequent reasons for leaving Alternatively this book proposes a theory of how different stakeholders values and ethics shape multinationals strategic leaving behaviors Tested in South Africa when US multinationals were facing diverse pressures from stockholders governments and consumers to leave the research provides a prism to isolate how different stakeholders actions influenced multinationals behaviors Detailed analyses of subsidiary level archival data over a period of four crucial years revealed that the multinationals engaged in diverse forms of leaving reflecting their involvements strategies and stakeholders influences The research the first to test which stakeholders strategies including boycotts and sanctions influenced multinationals and which did not and to identify their effects on multinationals behaviors has enormous implications for policy makers managers and social activists The book also applies the findings and explores implications for recent stakeholders attempts at influencing multinationals and governments such as Nike in Asia and the Burmese government through sanctions resolutions and boycotts

Strategic International Management Dirk Morschett, Hanna Schramm-Klein, Joachim Zentes, Benjamin Bader, 2025-05-24 A compact overview of the key concepts and main developments in International Management Strategy concepts models and theories of Multinational Corporations and their practical implementation are the core of this book The authors explore the unique aspects of international value chain activities and business functions offering a deep understanding of how areas like Production the rest of them have been revised Despite these updates the proven core concept of the book remains unchanged From the fourth edition Benjamin Bader joins the author team

Business Networks Emanuela Todeva, 2006-09-27 Although social political technological and business networks hold our modern world together we still lack a good understanding of what business networks are how

they work and the language of network analysis that we may apply to solve common everyday problems This book looks at such questions as How do we make sense of the business networks we participate in and the networks we observe from a distance Are business networks distinct from social networks and if so what distinguishes them How can business network analysis from a multidisciplinary perspective enhance strategic management Emanuela Todeva deftly explores the patterns of networking and the dynamics of network relationships to show how we can begin to tap their full potential Of great interest to students and scholars of business network analysis this revealing volume will also prove informative for managers wishing to obtain insights into network dynamics and its implications for strategic decision making Business Networks expertly provides an interdisciplinary overview It skilfully engages the reader with a range of economic sociological strategic management and communication theories that contribute to our knowledge of networks and networking Transcending specific disciplines and synthesizing the contributions that shape the structural relational and cultural approaches to network analysis Todeva s outstanding text offers a wealth of conceptual frameworks and an exhaustive typology of existing business networks

Managing the Contemporary Multinational Ulf Andersson,Ulf Holm,2010-01-01 Managing the Contemporary Multinational explores the role of headquarters in different structures of multinational firms and shows how this role is affected by the complexity of contemporary research This topical book illustrates that contemporary research has added complexity to the attributes of the multinational with implications for the role of headquarters It examines claims that subsidiaries contribute to the overall competitiveness of the corporation that they are organized in corporate networks spanning country borders and that they depend upon specific relationships in the external network It is stressed that headquarters knowledge of the multinational and its business environment is crucial but also problematic The eminent contributors question whether headquarters have become more or less important given the complexity of contemporary research and argue that the answer to this question depends on the theoretical foundation adopted in the multinational Based on empirical studies this invaluable book will be a captivating read for students and researchers interested in international business and international management

Transnational Corporations and Innovative Activities John Cantwell,1994

Multinational Companies from Japan Robert Fitzgerald,Chris Rowley,2017-10-02 Since the bursting of Japan s bubble economy from 1990 onwards its multinational companies MNCs have faced new competitive challenges and questions about the management practices on which they had built their initial success in global markets Japanese engagement in the international economy has undergone a number of phases Historically Japanese MNCs learnt from foreign companies frequently through strategic alliances After the post war economic miracle Japanese manufacturers in particular converted themselves into MNCs transferred their home grown capabilities to overseas subsidiaries and made an impact on the world economy But the period after 1990 marked declining Japanese competitiveness and asked questions about the ability of Japanese MNCs to be more responsive and global in their strategies organization and capabilities It has been

argued that the established management practices of Japanese MNCs inhibited adaptation to recent demands of global competition This volume presents new case evidence on how Japanese MNCs have responded to the new challenges of the global market place and it provides examples of how they have transformed strategies and competitive capabilities This book was originally published as a special issue of Asia Pacific Business Review
