Sonnenschein,1910 **The Devil's Fruit** Dvera I. Saxton,2021-02-12 The Devil s Fruit describes the facets of the
strawberry industry as a harm industry and explores author Dvera Saxton s activist ethnographic work with farmworkers in
response to health and environmental injustices She argues that dealing with devilish as in deadly depressing disabling and
toxic problems requires intersecting ecosocial emotional ethnographic and activist labors Through her work as an activist
medical anthropologist she found the caring labors of engaged ethnography take on many forms that go in many different
directions Through chapters that examine farmworkers embodiment of toxic pesticides and social and workplace
relationships Saxton critically and reflexively describes and analyzes the ways that engaged and activist ethnographic
methods frameworks and ethics aligned and conflicted and in various ways helped support still ongoing struggles for
farmworker health and environmental justice in California These are problems shared by other agricultural communities in
the U S and throughout the world *Ecological Informatics* Friedrich Recknagel,William K. Michener,2017-09-21 This book
introduces readers to ecological informatics as an emerging discipline that takes into account the data intensive nature of
ecology the valuable information to be found in ecological data and the need to communicate results and inform decisions
including those related to research conservation and resource management At its core ecological informatics combines
developments in information technology and ecological theory with applications that facilitate ecological research and the
dissemination of results to scientists and the public Its conceptual framework links ecological entities genomes organisms
populations communities ecosystems landscapes with data management analysis and synthesis and communicates new
findings to inform decisions by following the course of a loop In comparison to the 2nd edition published in 2006 the 3rd
edition of Ecological Informatics has been completely restructured on the basis of the generic conceptual f ramework

provided in Figure 1 It reflects the significant advances in data management analysis and synthesis that have been made over the past 10 years including new remote and in situ sensing techniques the emergence of ecological and environmental observatories novel evolutionary computations for knowledge discovery and forecasting and new approaches to communicating results and informing decisions El-Hi textbooks in print R.
