God Is Not Great How Religion Poisons Everything:

God Is Not Great Christopher Hitchens, 2008-11-19 Christopher Hitchens described in the London Observer as one of the most prolific as well as brilliant journalists of our time takes on his biggest subject yet the increasingly dangerous role of religion in the world In the tradition of Bertrand Russell s *Why I Am Not a Christian* and Sam Harris s bestseller *The End Of Faith* Christopher Hitchens makes the ultimate case against religion With a close and erudite reading of the major religious texts he documents the ways in which religion is a man made wish a cause of dangerous sexual repression and a distortion of our origins in the cosmos With eloquent clarity Hitchens frames the argument for a more secular life based on science and reason in which hell is replaced by the Hubble Telescope s awesome view of the universe and Moses and the burning bush give way to the beauty and symmetry of the double helix

Does Religion Poison Everything?** Pillar Of Truth Press,2024-03-05 In *God is Not Great Does Religion Poison Everything* I will tackle Christopher Hitchens provocative question examining the 1 reason why atheists like Hitchens harbor resentment towards religion Through a thoughtful exploration of personal experiences skepticism and medical miracles the book challenges the assumptions that underpin atheism From dissecting the Old and New Testaments to addressing ethical dilemmas this book gets into the heart of the debate between believers and non believers I will take you on a personal journey through my own faith as I unpack questions about God s existence miracles and the purpose of suffering By inviting you into my personal story and doubling down with intellectual discussions my book invites you to reflect on your own beliefs and consider the intricate balance between skepticism and faith I not only respond to Hitchens claims but also introduce four thought provoking questions specific to Christianity challenging the atheist perspective Through a blend of theological exploration and scientific reasoning I argue that atheism or antitheism itself may contradict the principles of science and reason I invite you to come down this path with me that goes beyond the boundaries of belief as I provide a fresh perspective on the age old debate between atheism and religion Explore the complexities of human experiences the role of miracles and the underlying principles that shape our understanding of God as well as that of morality and the universe at large *I Want to Believe* Mel Lawrenz,2008-01-02 In *I Want to Believe* Mel Lawrenz ignites a latent desire in all of us the desire to believe in something bigger than ourselves Lawrenz takes an honest dive into topics that are true areas of tension doubt rebirth faith and action and the essence of Christian faith A fresh and engaging style draws readers into an unexpected conversation in which they

expose its many flaws Rather than a dictator God will be shown to be a God of love Christianity too will be revealed as a faith that ought to resist tyranny provides the best foundation for intrinsic human value and is a rational belief system In so doing this book appeals to all who have been influenced or convinced by Hitchens arguments to reconsider their position and refuse to rage against the light *Systematic Atheology* John R. Mueller,2014-04-08 Groundbreaking Washington Examiner Economics is primed for and in desperate need of a revolution respected economic forecaster John D Mueller shows in this eye opening book To make the leap forward will require looking backward for as Redeeming Economics reveals the most important element of economic theory has been ignored for more than two centuries Since the great Adam Smith tore down this pillar of economic thought economic theory has been unable to account for a fundamental aspect of human experience the relationships that define us the loves and hates that motivate and distinguish us as persons In trying to reduce human behavior to exchanges modern economists have forgotten how these essential motivations are expressed as gifts or their opposite crimes Mueller makes economics whole again masterfully reapplying the economic thought of Aristotle Augustine and Aquinas **The Greatest Religion Never Tried** ,
