Post-Communist Europe Timothy Edmunds, Andrew Cottey, Anthony Forster, 2013-10-18 Fifteen years after the fall of communism we are able to appraise the results of the multi faceted postcommunist transition in Central and Eastern Europe with authority This volume specifically addresses the fascinating area of Civil Military relations throughout this transitional period The countries of the region inherited a onerous legacy in this area their armed forces were part of the communist party state system and most were oriented towards Cold War missions they were large in size and supported by high levels of defence spending and they were based on universal male conscription Central and eastern European states have thus faced a three fold civil military reform challenge establishing democratic and civilian control over their armed forces implementing organisational reform to meet the security and foreign policy demands of the new era and redefining military bases for legitimacy in society This volume assesses the experiences of Poland Hungary Latvia Romania Croatia Serbia Montenegro Ukraine and Russia in these areas Collectively these countries illustrate the way in which the interaction of broadly similar postcommunist challenges and distinct national contexts have combined to produce a wide variety of different patterns of civil military relations This book was previously published as a special issue of European Security **Building Security in**

Post-Conflict States Ursula Schroeder, 2017-10-02 Support for security and justice institutions has become a crucial instrument of international engagement in fragile and conflict affected states In attempts to shore up security as a precondition for sustainable peace international actors have become deeply engaged in reforming the security agencies and security governance institutions of states emerging from conflict But despite their increasing importance in the field of international peace and state building security sector reform SSR interventions remain both highly political and deeply contentious processes Expanding on this theme this edited volume identifies new directions in research on the domestic consequences of external support to security sector reform Both empirically and theoretically the focus lies on the so far neglected role of domestic actors interests and political power constellations in recipient states Based on a wide range of empirical cases the volume discusses how the often conflictual and asymmetric encounters between external and domestic actors with divergent interests and perceptions affect the consequences of international interventions By taking into account the plurality of state and non state security actors and institutions beyond classical models of Weberian statehood the contributions make the case for engaging more closely with the complexity of the domestic security governance configurations that can result from external engagement in the field of security sector reform This book was published as a special issue of International Peacekeeping Governance in Post-Conflict Societies Derick W. Security and Development Robert Picciotto, Rachel Weaving, 2013-10-28 The new contributions in this book by acknowledged leaders in the field examine the delivery of effective aid under fire and securing the peace in environments where governance is fragile They bridge the cultural divide between the security and development professions at a time of unprecedented global economic integration geopolitical turbulence and novel threats to international peace and security More than a billion people live in countries where governance is weak poverty is rampant and economies are depressed Failed and frail states provide ideal breeding grounds for civil strife criminality and new wars that target civilians use children as combatants and commit massive human rights violations The new security risks loom within national borders while the capacity of the international community to intervene behind borders remains inadequate Policy making for security still relies heavily on military responses Yet military responses cannot address and may even worsen the social and cultural antecedents of civil strife and social resentment Similarly development aid policy and practice are poorly adapted to the new realities of frail governance and insecure operating environments in aid recipient countries This book was previously published as a special issue of the leading journal Conflict Security and Development

Security Sector Reform in Conflict-Affected Countries Mark Sedra, 2016-11-03 This book examines the evolution impact and future prospects of the Security Sector Reform SSR model in conflict affected countries in the context of the wider debate over the liberal peace project Since its emergence as a concept in the late 1990s SSR has represented a paradigm shift in security assistance from the realist regime centric train and equip approach of the Cold War to a new liberal holistic and people centred model The rapid rise of this model however belied its rather meagre impact on the ground This book critically examines the concept and

its record of achievement over the past two decades putting it into the broader context of peace building and state building theory and practice It focuses attention on the most common celebrated and complex setting for SSR conflict affected environments and comparatively examines the application and impacts of donor supported SSR programming in a series of conflict affected countries over the past two decades including Afghanistan Sierra Leone the Democratic Republic of Congo East Timor and Bosnia Herzegovina The broader aim of the book is to better understand how the contemporary SSR model has coalesced over the past two decades and become mainstreamed in international development and security policy and practice This provides a solid foundation to investigate the reasons for the poor performance of the model and to assess its prospects for the future This book will be of much interest to students of international security peacebuilding statebuilding development studies and IR in general Security, Democracy and War Crimes J. Gow,I. Zverzhanovski,2013-10-23 This book examines how the war crime legacy resulting from the Yugoslav war of the 1990s on political and military transformation in Serbia was an impediment to security reform democratization and the achievement of Western standards in the Belgrade armed forces **Governance and the Crisis of Rule in Contemporary Africa** Ebenezer Obadare,Wale Adebani,2016-02-09 This volume advances the discussions of leadership in Africa s specific history culture economy and politics The book promotes an understanding of leadership and its paradoxes and illuminates the conditions under which political leadership has been produced and how those conditions have shaped leaders *Security Governance in East Africa* Kennedy Agade Mkutu,2017-12-15 This collection of cases from East Africa contributed largely by locally based authors explores the increasing security governance phenomenon in the region that is the mix of state and non state actors including private entities volunteer auxiliaries homegrown vigilantes and gangs and the relationship between police and communities Local dynamics brought by globalization liberalization the new scramble for resource wealth inequality and international terrorism are observed in detail superimposed upon the well known development challenges ethno-political divides and patterns of government and security provision which continue to reflect their colonial past This book raises both practical and theoretical ethical dilemmas of the increasing fragmentation of security functions within Uganda Kenya South Sudan mainland Tanzania and Zanzibar It is a vital contribution to the non state plural policing debates and is of both local and global relevance **Conflict, Security and Development** Paul Jackson,Danielle Beswick,2014-11-07 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict This 2nd edition is revised and updated to take account of changes that have occurred in both policy and academic arenas which are relevant to students and practitioners in this area In an interdependent world it is often argued that the challenges of underdevelopment and insecurity have global implications This textbook charts an accessible course through these complex debates providing a comprehensive introduction for those encountering these issues for the first time The main aims of the revised edition are to set out how thinking on conflict

security and development has changed over time and continues to evolve to explore the consequences of these changes particularly for the theory and practice of development and security promotion to introduce a range of case studies from across the globe in order to explore the implications of a combined approach to security and development The authors are experienced in both the theory and the practice of this field and illustrate the links between conflict security and development with practical examples drawing on key case studies from the past twenty years Each chapter is informed by student pedagogy and the book will be essential reading for all students of development studies war and conflict studies and human security and is recommended for students of international security and IR in general *Peace and Conflict Resolution in Africa* Ernest E. Uwazie, 2019-01-15 This publication is the product of the 25th Annual Africa and Diaspora Conference in 2016 organized by the Center for African Peace and Conflict Resolution at California State University Sacramento on the theme of Peace and Conflict Resolution in Africa 25 Years Later Lessons Best Practices and Opportunities It brings together reflections on both historical and contemporary or recurring conflicts in Africa especially on issues of ethno religious conflicts corruption land and leadership The chapters include case studies and some theoretical perspectives on the persistent search for the right size and scope of visioning and programming on peace and conflict resolution in Africa Understandably this collection of ideas thoughts and proposals will resonate with the field of Peace and Conflict Studies Arguably Africa is rising in the 21st century with declining violent conflicts and an increase in stable democracies and economies However there are still the significant challenges of extremism climate change poor governance ineffective leadership widening wealth gaps and weak institutions of moderation The essays collected here also document areas of progress in legitimizing democracy and conceptualizing social justice and suggest the need for building the next generation of peace leaders in Africa **Intelligence Governance and Democratisation** Peter Gill, 2016-04-20 Fills a gap in the intelligence literature on democratisation and intelligence governance Intelligence is a growing field of study and increasingly important in international affairs The author is an experienced and respected scholar This book will be of much interest to students of intelligence studies democracy studies comparative politics security studies and IR Conflict, Security and Development Danielle Beswick, Paul Jackson, 2013-06-17 This textbook draws on academic theory field research and policy developments to provide an overview of the connections between security and development before during and after conflict **Emerging Transnational (In)security Governance** Ersel Aydinli, 2010-02-25 This book presents a selection of edited essays written by leading international scholars engaging with practicing intelligence military and police officers and responding to their first hand international security cooperation experiences The resulting chapters provide original theoretical perspectives on evolving international security cooperation practices Beginning with the premise that intelligence cooperation domestically between agencies internationally between states and transnationally among states sub state and non state actors is essential in order to successfully counter the evolving transnational nature of security threats

the authors explore the transnationalization in states responses to a transnational security threat like global terror They assess whether early signs of a statist transnationalism for a new global security cooperation regime can be identified and look at the use of extraordinary rendition and police liaisons as means for the development and growth of transnational security cooperation This book will be of interest to students and scholars of international relations terrorism security policing and intelligence Armies and Insurgencies in the Arab Spring Holger Albrecht, Aurel Croissant, Fred H.

Jonathan Goodhand, Mark Sedra, 2016-04-14 This book covers the period spanning the international invasion of Afghanistan in 2001 to the foreign military withdrawal in 2014 It explores and dissects the conflictual encounter between international troops statebuilders and donors on the one hand and Afghan elites and the wider population on the other It brings together a group of leading experts and analysts on Afghanistan who examine the varied reasons behind the mixed and often perverse effects of exogenous state building and reflects upon their implications for wider theory and practice The starting point of the various contributions is a serious engagement with empirical realities drawing upon extended experience and field research Their exploration of the unfolding dynamics and effects of external intervention raise fundamental questions about the core premises underlying the state building project This book was published as a special issue of *Central Asian Survey* *Secular and Islamic Politics in Turkey* Ümit Cizre, 2008-03-25 Turkey is ninety nine per cent Muslim its ruling party Justice and Development Party JDP comes from but denies its Islamist pedigree and has a very secular feel However the deeply secular regime distrusts the JDP with regard to its true colours This book makes sense of these paradoxical perceptions which have characterized Turkey's politics since the JDP has come to power in 2002 The key momentum for shaping the nature and trajectories of the ruling party of Turkey since 2002 the JDP has been the identity question The JDP's commitment to transform Turkey's politics was part of its engagement to remake its own identity The JDP's adoption of a conservative democrat identity has rested on a new understanding of Westernization secularism democracy and the role and relevance of Islam in politics The book's central problematic is to explain both the politics of change the JDP initiated and sustained in the first three years in office and the politics of retreat it has made from its reformist discourse since 2005 The book analyzes not just the catalysts for its reformist discourse of the first 3 years but tries to explain its reversal to an inward looking conservative nationalist course By approaching this topical debate from the conceptual stance rather than a party centered approach mit Cizre identifies that the change the JDP has initiated within Turkey's political Islam and in Turkish politics is the product of an interactive process between many levels actors forces and historical periods The forces and actors covered include global forces of Islam the secular establishment and its popular extensions the past and present Islamic actors in political and non political spheres the changing balance of forces in the region which frame the EU and the US policies

toward the JDP Secular and Islamic Politics in Turkey is a valuable contribution to the study of globalization and change in contemporary political Islam the relationship between religion and politics and secularism and political Islam As such it will be of interest to students and researchers alike in the area of Islamic politics democratization European Union and political Islam and globalization
